Message:

Joint Finance: Modify the component of the Governor's Work-Based Learning Board as follows:

Governor's Work-Based Learning Board -- Transfer Division of Connecting Education and Work [LFB Paper 1055]. The membership of the Governor's Work-Based Learning Board would be expanded to include two additional public members who were not public officers or representatives of business or labor but who would have experience in secondary vocational education and work-based learning. *Board*

Youth Apprenticeship Training Grants [LFB Paper 1056 and 1058]. The total lapse amount would be reestimated to be \$940,300 ~~X~~ the provision that would require the appropriation for local youth apprenticeship training grants to be increased by the amount lapsed from the current youth apprenticeship training program in 1998-99 would be deleted. This would increase the estimated lapse by \$240,300 over the amount included in the bill and eliminate the requirement that the amount lapsed from the youth apprenticeship training grant appropriation be transferred to the Board for grants in 1999-00. Current law provisions regarding curricula development would be maintained so that either DWD or the proposed Governor's Work-Based Learning Board would be responsible for the development of youth apprenticeship curricula using funding provided in the Department's or Board's general program operations appropriation, ~~consistent with other decisions of the Finance Committee relating to the creation of the Board.~~ *and*

Self-Paced Youth Apprenticeship Program [LFB Paper 1057]. The Governor's recommendation would be modified to delete \$12,100 PR in 1999-00 to provide nine months' funding for the administrative position. In addition, the Self-Paced Youth Apprenticeship program would be required to include a component that ensures that participants could earn a youth apprenticeship skills certificate through the self-paced program if they meet youth apprenticeship certification requirements.

Technical College Study Grants [LFB Paper 1059]. The grant program, funding and appropriation would be eliminated.

Career Counseling Centers [LFB Paper 1060]. Unemployment Insurance interest and penalty ~~appropriation~~ funding for career counseling center grants and the related appropriation would be deleted. The Department would be directed to consolidate career counseling center functions in job centers. *X*

Federal Carl Perkins Act Funds [LFB Paper 1062]. Funding to be provided to the Board would be reestimated to delete \$16,200 PR annually and 1.25 PR positions, ~~would also be deleted.~~ In addition, the Governor's Work-Based Learning Board would be required to distribute at least \$1,646,100 of federal Carl Perkins tech-prep program funding for the 1999-00 program year as follows: (a) \$70,000 to each of the 16 tech-prep consortia; and (b) a total of \$526,100 allocated among the consortia based on the number of 10th grade students in the consortium and the number of secondary schools within the Wisconsin technical college district. The Board would be directed to review the local tech-prep programs and the

the proposed use of tribal gaming revenues, see the summary item relating to Tribal Gaming Revenue Allocations under "Administration-- Division of Gaming."]

Under current law, DVR is required to advise and assist any disabled individual who applies to DVR for vocational rehabilitation services. Rehabilitation services provided by Division staff include individual assessments and evaluations, developing individualized rehabilitation programs, obtaining physical and psychiatric treatment, and securing and supervising other services, such as vocational training, that are part of an individual's vocational rehabilitation program. The individual rehabilitation programs are designed to assist the person to become capable to compete in the labor market, practice a profession, be self-employed, raise a family and make a home, and participate in sheltered employment or other gainful work.

Under Title I-B of the federal Vocational Rehabilitation Act, state funding of 21.3% is required as a match to federal funding of 78.7% for vocational rehabilitation services which move a disabled person toward employment.

Joint Finance: Include provision. In addition, the Division of Vocational Rehabilitation would be required to complete a plan for reorganizing the Division that would include a reduction in supervisory staff, conversion of excess vacant supervisor positions into rehabilitation counselor or support positions, and additional support for counselors. The reorganization plan must be submitted to the Secretary of Workforce Development. Any plan approved by the Secretary would be required to include a provision that would reclassify program assistant supervisors as program assistants to provide increased support to counselors and that as program assistant supervisors positions become vacant because of the reorganization they be converted into rehabilitation counselor positions in regions with high caseloads.

10. WISCONSIN CONSERVATION CORPS -- FUNDING FOR CREWS [LFB Paper 1065]

SEG	\$750,500
-----	-----------

Governor/Joint Finance: Provide \$321,700 in 1999-00 and \$428,800 in 2000-01 from the forestry account of the conservation fund to continue funding 55 WCC field crews. The WCC is a state agency that administers conservation and community development activities through projects conducted by field crews. Field crews generally consist of four to six unemployed young adults under the direct supervision of a trained crew leader.

11. WISCONSIN CONSERVATION CORPS -- ADMINISTRATIVE FUNDING

GPP	\$2,400
SEG	4,700
Total	\$7,100
