This is drafted according to your instructions, but I don't know what the requester intended. Because cable television systems are essentially monopolies, I'm not sure with whom the system could be "competitively neutral." As far as I know, there *are* no competitors. I also don't know what it means to require the system to be operated on a "nondiscriminatory basis." If you could tell me what the requester's intent is, perhaps the amendment could be redrafted to accomplish the requester's goal.
