AIDS RESOURCE CENTER
OF WISCONSIN

PLANNING WISCONSIN'S RESPONSE TO AIDS

Expanding HIV Prevention Services

A Blueprint for Stopping AIDS in Wisconsin

The AIDS Resource Center of Wisconsin encourages the Joint Finance Committee to reinvest \$500,000 GPR funds in the 1999-2001 State Budget into effective, community-based HIV prevention services. This funding is available based on a reestimate in utilization and expenditures for the HIV/AIDS Insurance Continuation Program.

Eighteen years into the AIDS epidemic, the State of Wisconsin reports at least one new person living with HIV each day. Men, women and children across Wisconsin remain at high risk for HIV. In the past four years:

- 1,429 Wisconsin residents have been diagnosed as HIV positive, a 31% increase
- the number of teens with AIDS has increased by 44%, and, nationally, 50% of all new HIV infections occur among youth between the ages of 13 and 24
- the number of women with AIDS in Wisconsin has increased by 63%

The State of Wisconsin HIV Prevention Planning Council has done excellent work in determining the most effective HIV prevention strategies for urban and rural populations at greatest risk of contracting HIV. This initiative will fund professionally trained outreach workers located across Wisconsin to implement the HIV prevention strategies highlighted in the plan, include:

- one-on-one HIV prevention counseling
- HIV prevention case management
- outreach HIV counseling and testing
- peer education and opinion leader strategies
- HIV risk-reduction skills building

Since 1989, the State of Wisconsin has flat-funded HIV prevention at \$180,000 GPR even though reported HIV infections have increased 8-fold. Wisconsin now spends more money on administering AIDS programs than on preventing new infections.

The reinvestment of these funds into HIV prevention services will not reduce the access to health care through Wisconsin's HIV/AIDS Insurance Continuation Program and is an effective strategy to reduce future State-funded costs for HIV care and treatment which can be as high as \$125,000 per person living with HIV.
