## Possible Amendment From SRSC

SRSC #21  
RE: Stray Voltage

This motion is identical to one that was offered by Rep. Suder during the Assembly GOP budget caucus.

This amendment would appropriate \$100,000 in each year of the biennium for programs to train electricians in the proper wiring of today's dairy operations. This training and research would include the latest technologies and systems for arresting stray voltage.

✓ Electricians who participate in the program would be certified farm wiring professionals.

1. The attached draft creates a <sup>dalry</sup> farm wiring professional training and certification program in the department of commerce. The draft also appropriates \$100,000 of GPR annually to fund the program.

2. Currently, under s. 196.857, stats., the public service commission is required to administer a stray voltage program. As part of that program, the commission is required to conduct classroom and on-farm stray voltage training sessions for public utilities, cooperatives, electricians or other interested parties. See s. 196.857(1g)(c), stats. This existing program may already satisfy your intent. ↙
