Assumptions Used in Arriving at Fiscal Estimate:									
This bill removes the requirement under the Health Insurance Risk Sharing Plan (HIRSP) that, for coverage of services or articles prescribed or provided by a physician or chiropractor who is licensed in another state, the physician or chiropractor must be certified as a medical assistance provider. Instead, these providers must satisfy any certification requirements of the Department.									
Funding for the HIRSP program is provided by state GPR, state SEG funding, policyholder premiums, assessments to the insurance industry, and assessments to health care providers in the form of provider discounts.									
The HIRSP program currently has a formal administrative procedure to certify providers who are licensed out of state. It is assumed that the bill's specified changes in the certification procedure will have no increases in administrative costs. It is also assumed that the changes will not affect utilization of services. The bill has no fiscal effect.									
Law Barra Final Implications									
Long-Range Fiscal Implications:
