AGENCY REPORTS

State of Wisconsin
Investment Board
Madison

March 20, 2000

To the Honorable, the Legislature:

Section [25.17\(14r\)](#) of the Statutes requires that the State of Wisconsin Investment Board (SWIB) submit a report to the Joint Committee on Audit, Joint Committee on Finance and the Chief Clerks of each House summarizing any change in the Board's investment policies, upon adoption of the change.

On February 3, 2000 the Board approved modifications to the Investment Policy Guidelines relating to the Real Estate and Fixed Income portfolios. Attached are the modified guidelines. Additions to the previous guidelines are shaded and deletions are the ~~stricken~~ material. Also attached for informational purposes is the revised Real Estate Investment Guidelines which specifically addresses the detailed operation of our real estate portfolios.

Real Estate Guideline Changes

SWIB operates an internally managed real estate portfolio with assets totalling \$1.9 billion as of January 31, 2000. The underlying objective of the real estate program is to prudently invest in high quality real estate investments which serve to enhance long-term investment performance, generate attractive risk-adjusted returns, diversify SWIB's asset base and reduce the volatility of the entire SWIB investment portfolio.

The program presently has two main components: the Core portfolio and the Non-Core portfolio. Both the Core and Non-Core portfolios are direct investment portfolios, whereby SWIB is the sole or joint owner in real property. Within this structure, SWIB engages investment managers to manage individual real estate investments and pools of investments. Guideline changes were effected at the February board meeting which specifically address the Core portfolio.

Prior to the guideline modifications, SWIB staff had the discretion to invest, without prior Board approval, in properties meeting specific criteria. SWIB staff was given

this authority with a spending limit of up to \$50 million. After \$50 million in properties were acquired, SWIB staff could not make new discretionary investments until the Board was provided with a detailed retrospective review of the investments made.

The guideline changes were effected to provide SWIB staff with enhanced discretionary authority when potential investments fall within stipulated criteria. The revised program was designed to be ongoing and continually funded so that attractive, core properties could be acquired as available in the market. To accomplish this goal, the \$50 million discretionary funding cap was removed and a policy of monthly reporting was adopted.

The new investment guidelines include revised criteria for investments that qualify for the discretionary Core Portfolio. Generally, these changes simplify and clarify the criteria, while keeping the emphasis on stable, institutional quality, equity investments. Qualifying investments still must afford SWIB control of the investment and be one of the four major property types (office, industrial, apartments or retail). Under this plan, incentive fees for external managers are not permitted.

The newly adopted real estate investment policies strengthen the real estate program by expediting the investment process and allowing SWIB staff and investment managers the opportunity to move rapidly when the market offers attractive opportunities.

Public Fixed Income Guideline Changes

SWIB's internal staff manages in excess of \$6.6 billion in domestic public bond investments. Prior to the guideline changes adopted at the February board meeting, these investments were held in three separately managed portfolios: the Intermediate Duration portfolio (IDP), the Core Public Bonds portfolio (Core), and the Market Evaluation portfolio (MEP).

The recent guideline changes restructured the above portfolios into two portfolios: the Long Government/Corporate portfolio (LGC) and the Intermediate Government/Corporate portfolio (IGC). These changes were adopted as a result of a comprehensive asset allocation review completed in January. The effect of this change will be to align our portfolios with the broader bond market and will focus more expertise on specific areas of the market. The LGC's mandate is long-term, primarily focusing on maturities 10 years and longer. The IGC portfolio is concentrated on the intermediate bond market, primarily focusing on maturities 10 years and shorter. These changes also address existing staffing constraints and considerations for succession planning. Additional information regarding this change was provided in our annual Goals and Performance report to the Legislature in January.

Please contact me if you have any questions about this report.

Sincerely,
PATRICIA LIPTON
