TESTIMONY ON A.B. 150

"DIRTY DUMPERS" BILL

4/22/99

Chair Ainsworth and Committee Members;

A. B. 150 was introduced last session as A. B. 274, and passed the Assembly, but did not receive action in the Senate.

I introduced this legislation because my office received many complaints about individuals dumping garbage in ditches along the roadside or in fields on public and private property. This "garbage" is anything from normal household waste to tires and broken appliances. In many rural counties there are no municipal dump sites and people have to pay to have their garbage and recycled material hauled away. Instead of paying, they dump it in ditches and fields.

According to the Department of Natural Resources (DNR) this is a large problem in the rural counties. The DNR said that education is the key to stopping the problem.

Under current law, a town may enact a zoning ordinance regulating trash dumping along streams and natural watercourses. Under the bill, a town may enact a dumping ordinance that applies to the town's entire territory. In addition, under the bill, towns and counties may provide for a forfeiture for violating a dumping ordinance. Also, under the bill, towns, counties, and town sanitary districts may publicize the names of persons that violate dumping ordinances.

I will be happy to answer any questions.
