Assembly Bill 546 Relating to Limiting Retirement Income in Homestead Credit Household Income to the Taxable Amount

Assembly Bill 546 amends the definition of income for purposes of the Homestead Credit so that only taxable pension and annuity income would be included in household income.

The Department of Revenue supports the intention to exclude the nontaxable portion of pensions and annuities, since that would allow these types of income to be treated the same as other types of income. The nontaxable portion of pensions and annuities represents amounts invested in these plans. Because these amounts are taxable under current law, pensions and annuities are treated less favorably than other types of withdrawals from savings and investment plans, where only the net earnings and not the initial investment are included in income.

However, as drafted, AB 546 would also exclude nontaxable social security benefits, railroad retirement benefits and veterans disability pensions from household income. That is because a parenthetical statement in the definition of income in sec. 71.52 (6) includes these types of income as a pension or annuity. The Department would oppose the removal of nontaxable social security, railroad retirement and veterans disability benefits from the definition of household income.

The Department suggests that AB 85 be used as a guide in amending the definition of income. That language would limit the amount excluded to the nontaxable portion of pensions and annuities. AB 85 makes several other changes to the definition of household income that DOR also supports. It excludes contributions to IRAs, Keogh accounts and deferred compensation plans from household income to eliminate double counting of these amounts for Homestead purposes. It also includes life insurance death benefits and compensation for sickness and injury benefits in income, since these are sources of income available for payment of property taxes or rent that should be taken into account in determining whether Homestead relief is provided.

AB 546, if it excludes nontaxable social security, railroad retirement and veterans disability income from household income, would raise Homestead expenditures by \$40 million for current recipients and by an undetermined amount for persons currently ineligible because their income currently exceeds the income ceiling. These new claims would require additional expenditures by the Department of Revenue, not estimated at this time, for processing and verification of claims. If amended to limit the amount excluded from income to the nontaxable portion of pensions and annuities, the bill would increase Homestead expenditures by approximately \$1 million annually.

If the bill is amended to incorporate changes to pensions and annuities similar to AB 85, the Department of Revenue would support this legislation. In addition, we are still interested in seeing other changes to the definition of household income, such as the treatment of contributions to IRA's and deferred compensation plans, and the consideration of death benefits and compensation for sickness and injury. We hope the legislature will continue to examine these issues in proposals like AB 85 or other efforts.

Death Benefit Schedule.

The schedule below shows the benefits to the beneficiary upon the death of the annuitant during the certain, or guaranteed, period. If an annuitant dies during the certain period the beneficiary has two options: 1) continue to receive the regularly scheduled payments for the remainder of the certain period or, 2) receive the death benefit, which represents the present value at the time of death of the remaining payments in the certain period.

For contracts with life contingent payments, the difference between the single premium amount and the death benefit prior to the first payment is the amount paid for the opportunity to receive payments beyond the certain period.

Date 11-17-99 Proposal 546 Lead Author(s) Kreuser

Pros:

Income under homestead tax credit to only include income that is taxable

Essentially changes the definition so that the principal portion of the annity is not considered income under this proposal.

Cons:

Clarify what is a qualified & unqualified annuity

Dear Chairman Lehman,

I am writing to request that an executive session be held on Assembly Bill 546 relating to modifying the definition of "income" under the homestead tax credit.

AB 546, which has received bi-partisan support, was referred to Ways & Means on October 20th and received a public hearing on November 17th.

Thank you for your consideration of this request. If you have any questions regarding this or any other issue, please feel free to contact me directly at 266-5504.

Spouse's signature

For Department Use Only

If you or your spouse are age 65 or over and received no social security, SSI, or railroad retirement benefits in 1999, attach a note stating that you did not receive any income from any of these sources.

11d Scholarships, fellowships, grants, and military compensation Fill in the total amount received in 1999 for NONTAXABLE scholarship and fellowship income (for example, books or tuition), educational grants, or military benefits (for example, basic quarters and subsistence allowances, VEAP payments, or G.I. Bill benefits). Do not include student loans or amounts included elsewhere.

Note: If scholarship or fellowship income is included on line 9 of Schedule H, and all or any portion of that same income was also included in household income on your 1998 homestead credit claim, you may subtract the amount included in 1998 household income from your 1999 household income. Fill in the amount as a negative number on line 11d, and reduce your 1999 household income by this amount.

11e Pensions and annuities Fill in the GROSS amount of ALL pensions and annuities received in 1999 and not included elsewhere. Include veterans' pensions, disability payments, any amounts you contributed to a pension fund, and nontaxable IRA, Keogh, SEP, and SIMPLE distributions. Both taxable and nontaxable amounts must be included in household income.

Exceptions: Do not include rollovers (amounts transferred from one plan to another), or Section 1035 exchanges (tax-free exchanges of insurance contracts).

If all or a part of a pension or annuity distribution in 1999 includes a rollover amount or a tax-free exchange, write "Rollover" or "Tax-Free Exchange" near line 11e, and attach a copy of federal Form 1099-R.

Determine the amount to fill in on line 11e as follows:

Total amount received in 1999
 Total amount reported on line 9 or 10b

3. Rollover or tax-free exchange

4. Line 1 minus lines 2 and 3. Fill in this amount on line 11e

Example: In 1999, you received pension income of \$3,500, \$2,700 of which is taxable income and is included on line 9. No portion of the \$3,500 was a rollover. Fill in \$800 (\$3,500 - \$2,700) on line 11e.

11f Workers' compensation, income continuation, and loss of time insurance Fill in the total amount received in 1999 from these sources.

11g Support money and maintenance payments Fill in the total amount of any court ordered support payments received in 1999, including child support and family maintenance, but not foster care, voluntary support, or amounts included elsewhere.

11h Wisconsin Works, county relief, and other cash public assistance Fill in on Schedule 4 on back of Schedule H any Wisconsin Works payments, kinship care payments, county relief payments, or other cash public assistance payments received in 1999. Fill in the total on line 11h. Do not include the following: a prior year's homestead credit; nontaxable foster care; gifts; food stamps; nontaxable community options program (COP) payments; or fuel or energy assistance paid to a fuel supplier or utility, or provided under the federal Low-Income Home Energy Assistance Act.

If you fill in amounts on Schedule 4, you may also need to fill in Schedule 5. See paragraph 4 under "Exceptions: Homeowners and/or Renters," on page 9.

Repaid amounts Nontaxable income which was included in household income in a prior year and was required to be repaid in 1999 may be subtracted from household income on your 1999 Schedule H. Subtract the amount repaid on the income line of Schedule H to which the repayment relates. Attach an explanation indicating the amount of the repayment and the year it was included on a homestead credit claim.

Example: You filed a 1998 Schedule H and reported \$8,000 of social security benefits received in 1998. In 1999, you received social security benefits of \$9,000 but were required to pay back \$2,000 of the benefits you received in 1998. On line 11c of the 1999 Schedule H, fill in \$7,000, the social security received in 1999 (\$9,000) less the amount repaid (\$2,000).

■ Lines 12a Through 12c - Total Household Income

12a Fill in the total of lines 9 through 11h.

12b You may claim a "dependent deduction" by filling in the number of "qualifying dependents" and multiplying that number by \$250.

A qualifying dependent is a person who: a) is claimed or may be claimed as a dependent on your federal income tax return; and b) occupied your (the claimant's) homestead for more than six months during 1999. Adependent is considered to have occupied your homestead during temporary absences for reasons such as school, illness, or vacations.

The six months' occupancy requirement is considered to have been met if: a) the dependent was born or died during 1999 and occupied your homestead during the entire time he or she lived in 1999; or b) during 1999 the
