

Dear Members of the 1999 Joint Committee on Finance,

I am a MADISON AREA TECHNICAL COLLEGE student. I am one of the 450,000 students representing 16 districts of the Wisconsin Technical College System. I am concerned about the proposed 1999-2001 state budget and the lack of **increases** in general state aid to technical colleges. This lack of increase funding has occurred over the past 20 years, **dropping 41%**. Educational investment is not only important for my education now but important for the future of our community as a whole.

I ask you to fund the Wisconsin Technical College System at the level requested by the WTCS Board (4.4% and 4.8% respectively for each year of the budget), in order to continue this educational investment. I would like other citizens to have the opportunity I have had. This would be possible only through an increased investment in the technical colleges.

This lack of increase funding has occurred over the past 20 years, dropping 41%. Educational investment is not only important for my education now but important for the future of our community as a whole.

I ask you to fund the Wisconsin Technical College System at the level requested by the WTCS Board (4.4% and 4.8% respectively for each year of the budget), in order to continue this educational investment. I would like other citizens to have the opportunity I have had. This would be possible only through an increased investment in the technical colleges.

Educational investment is not only important for my education now but important for the future of our community as a whole.

I ask you to fund the Wisconsin Technical College System at the level requested by the WTCS Board (4.4% and 4.8% respectively for each year of the budget), in order to continue this educational investment. I would like other citizens to have the opportunity I have had. This would be possible only through an increased investment in the technical colleges.

Dear Members of the 1999 Joint Committee on Finance,

I am a MADISON AREA TECHNICAL COLLEGE student. I am one of the 450,000 students representing 16 districts of the Wisconsin Technical College System. I am concerned about the proposed 1999-2001 state budget and the lack of increases in general state aid to technical colleges. This lack of increase funding has occurred over the past 20 years, dropping 41%. Educational investment is not only important for my education now but important for the future of our community as a whole.

I ask you to fund the Wisconsin Technical College System at the level requested by the WTCS Board (4.4% and 4.8% respectively for each year of the budget), in order to continue this educational investment. I would like other citizens to have the opportunity I have had. This would be possible only through an increased investment in the technical colleges.
