Re: Public hearing testimony from Osceola, Wisconsin; Held April 14, 1999

In addition to the included testimony, exists also limited numbers of extensive publications and videotaped testimony that has been distributed to the co-chairs, senior members, and fiscal bureau staff. A master copy of these items will be available per request from the Assembly Sergeant at Arms office for your review.

Although the bulk of the testimony is not arranged by subject or chronological order, some testimony from large groups of citizens containing similar subject matter regarding AB 133/SB 45 and or proposed amendments are grouped together.

Attached is a brief description of the publications and videotaped testimony not included in this packet that are available per request.
