**Subject:** AB632 & AB608 / AB609

I am aware these three (3) Assembly Bills are still in committee, however, I want to request that you vote a NO on all three if they come up for vote.

AB632 must not undermine a parents right to decide what is best for their children. Society does not need to be making decisions for parents. The ACLU is doing a great job of informing our children they need "them" because their rights are being denied. The children of WI should be a part of their family and nothing should strain the family structure in this manner. Teen pregnancies have been going down and abstinence is coming on very good across our country. Please don't let the financial monies (federal monies push from Washington) get in the way of what is best for WI parents.

AB608/609 follows suit with the family structure. All citizens of America have rights under our constitution. It has been said the any registry would not be feasible. And, California has one and it is not efficient nor working. Any business has the right to provide benefits to anyone in their employ. Leave it at that. Please vote NO to any special benefits for a "special interest segment of society". This is truly segregating out groups for special benefits.

Thank you Lin Kenworthy, a WI concerned citizen for family
