X Current law generally limits the increase in the total amount of revenue that
X a school district may receive from general school aids and property taxes to \$200 per
pupil in the ~~2000-01~~ school year and, in subsequent school years, to the amount of
revenue increase allowed per pupil in the previous school year increased by the
percentage change in the consumer price index. Several exceptions exist. A school
district's limit is increased by funds needed to pay any general obligation debt
service, including refinanced debt, authorized by a resolution of the school board or
by referendum before August 12, 1993, and is increased by funds needed to pay any
general obligation debt service, including refinanced debt, authorized by a
referendum on or after August 12, 1993.

This bill increases a school district's revenue limit in any school year by the
funds needed to pay any general obligation debt service, including refinanced debt,
if the debt was contracted to comply with an order issued by a court or a state or
federal agency and the borrowing was authorized by a resolution of the school board.

(NO) The bill also increases the revenue limit by the amount
the school district spent in the previous school year for
special assessments for public improvements.

ASSEMBLY BILL 20

1999 ASSEMBLY BILL 8

January 14, 1999 - Introduced by Representatives SCHNEIDER, J. LEHMAN, BOYLE, BERCEAU and LASSA, by request of Wisconsin Rapids School District. Referred to Committee on Ways and Means.

1 AN ACT to create 121.91 (4) (h) of the statutes; relating to: the treatment of
2 special assessments under school district revenue limits.

Analysis by the Legislative Reference Bureau

Current law generally limits the increase in the total amount of revenue that a school district may receive from general school aids and property taxes to approximately \$209 per pupil in the 1998-99 school year and, in subsequent school years, to the amount of revenue increase allowed per pupil in the previous school year increased by the percentage change in the consumer price index. The limit is based on the difference between the average of the number of pupils enrolled in the three previous school years and the average of the number of pupils enrolled in the current and two previous school years.

This bill increases the school district's revenue limit in any school year by the amount spent by the school district in the previous school year for special assessments for public improvements.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
