**FROM THE**  
**LEGISLATIVE REFERENCE BUREAU**

LRB-1284/1dn  
DAK.wlj.kjf

January 25, 2001

To Representative Wieckert:

As I have explained to your aide, Scott Becker, this bill includes several provisions that also appear in 2001 SB-1, which are, in effect, refinements to the concept of funding for prescription drugs or are changes that make the bill "work" in a better fashion. The changes are these:

1. The potential program participant's income is treated as annual household income, as determined by DHFS, under criteria promulgated as rules by DHFS (see s. 49.688 (2) and (4)).
2. The potential program participant's income limitation is at 185% of the poverty line *for a family the size of the person's eligible family* (see s. 49.688 (2)); the italicized language ensures that only the household income of the persons in a family that are eligible for the benefit will be counted. Thus, it would cover an 80-year-old woman with an income of 175% of the poverty line who is paying for her own prescription drugs but is living in a room of a house belonging to her 40-year-old daughter who makes \$40,000 a year.
3. The period of the benefit is specified as 12 months (see s. 49.688 (3) (a)); that means that it is a "rolling" benefit period, i.e., a person may apply in May and begin eligibility June 1 instead of waiting for the onset of the calendar year on January 1; this "rolling" benefit period is administratively simpler for DHFS because it can find people eligible throughout the year rather than having to determine an avalanche of applications in December.
4. I have included "payor of last resort" language (see s. 49.688 (3) (b)), to ensure that persons do not have duplicate coverage.
5. I have included fraud provisions and penalties for their violation (see s. 49.688 (10)).
6. The requirements for the report that DHFS must provide to the legislature if similar federal law is enacted are expanded (see s. 49.688 (11)).
7. I have included a mechanism under which joint finance may provide administrative funds to DHFS without requiring that DHFS go through a s. 13.10 procedure (which would require joint finance to make a finding of emergency) (see the Nonstatutory provisions).

8. I have included the authorization for DHFS to apply to the prescription drug program the same utilization and cost control procedures that it uses under MA; these utilization and cost control procedures are cost-saving mechanisms that DHFS employs in addition to prior authorization (see s. 49.688 (8)); okay?

This bill contains a sum certain appropriation for the funding of the program. Are you interested in having any mechanism included for determining what action should be taken if the money is insufficient, such as waiting lists or proration?

Please let me know if I may provide further assistance with respect to this bill.

### *Analysis by the Legislative Reference Bureau*

Under current state law, pharmacies and pharmacists that are certified providers of medical assistance (MA) services are reimbursed, at a rate established by the department of health and family services (DHFS), for providing certain prescription drugs to MA recipients. Under the MA program, numerous prescription

**BILL**

drugs must be authorized by DHFS prior to being dispensed to MA recipients. Under current federal law, persons entitled to coverage under part B of medicare do not receive coverage for prescription drugs for outpatient care as a benefit.

Under current law, an individual who is 65 years of age or older, blind, or permanently disabled, is eligible to receive MA if he or she meets certain income and asset requirements. Currently, to satisfy the income requirements for MA eligibility, an individual who is 65 years of age or older, blind, or permanently disabled must have an income that does not exceed 133.33% of the maximum payment amount under the former aid to families with dependent children (AFDC) program or the combined benefit amount available under the federal supplemental security income (SSI) program.

Beginning March 1, 2002, this bill increases to 100% of the federal poverty level the maximum income level for eligibility for MA for individuals who are 65 years of age or older, blind, or permanently disabled.

This bill provides that, beginning March 1, 2002, persons who have applied for and have been found by DHFS to be eligible for prescription drug assistance and who have paid an annual enrollment fee of \$25 may use a card, issued by DHFS, to obtain certain prescription drugs for outpatient care at a rate that is the average wholesale price minus 5% or the maximum allowable cost, as determined by DHFS, whichever is less, plus a pharmacy dispensing fee. After an eligible person has paid a deductible by expending \$840 in a 12-month period for prescription drugs at this reduced rate, the person may obtain additional prescription drugs in that period by paying a copayment of \$10 for each generic drug and a copayment of \$20 for each drug that is not a generic drug. Persons who are eligible to obtain prescription drugs for these reduced charges are state residents who are at least 65 years of age, are not MA recipients, and have household incomes, as determined by DHFS, that do not exceed 185% of the federal poverty line for a family the size of the persons' eligible families. As a condition of participation by a pharmacy or pharmacist in the MA program, the pharmacy or pharmacist may not charge persons who are eligible for prescription drug assistance more than these amounts; as a part of the costs chargeable for the deductible, the pharmacy or pharmacist may include a dispensing fee but may not charge a dispensing fee after the deductible is met. If a person who is eligible has other available coverage for prescription drugs, the program does not apply to the costs for prescription drugs available under that other coverage.

Under the bill, DHFS or an entity with which DHFS contracts may enter with drug manufacturers into rebate agreements that are modeled on federal medicaid rebate agreements, under which the manufacturer must make payments to the state treasurer for deposit in the general fund for the manufacturer's drugs that are prescribed and purchased under the program. The amount of the rebate payment under the agreement is required to be determined by the method that is specified under federal medicaid rebate agreements. The amounts of the rebate payments must, in turn, together with general purpose revenues, be paid by DHFS to pharmacies or pharmacists that have reduced charges for prescription drugs for the eligible persons. Payment is at the average wholesale price minus 5% or the maximum allowable cost, as determined by DHFS, whichever is less, minus any

**BILL**

copayment made, plus a dispensing fee. If a manufacturer enters into a rebate agreement, DHFS may not, after February 28, 2002, and before March 1, 2004, expand the prior authorization requirements under the MA program or under the prescription drug program created under the bill for prescription drugs manufactured by that manufacturer beyond those prior authorization requirements in effect under the MA program on March 1, 2002.

Under the bill, DHFS is authorized to enter into a contract with an entity to perform DHFS' duties and exercise its powers, other than rule making, under the prescription drug assistance program. DHFS must, under the bill, promulgate rules that specify the criteria to be used to determine household income for persons eligible for prescription drug assistance. Prescription drugs for which the reduced charges must be made are those that are available as an MA benefit and that are manufactured by a manufacturer that enters into a rebate agreement with DHFS. DHFS must calculate and transmit to pharmacies and pharmacists that participate in the MA program the prices at the discounted rate that must be charged to certain eligible persons in meeting the deductible for prescription drugs and must periodically update this information and transmit the updated information to pharmacies and pharmacists. DHFS must monitor compliance by pharmacies and pharmacists with the requirement to charge eligible persons for the specified prescription drugs at the reduced amounts and annually report to the legislature concerning the compliance. DHFS also must promulgate rules that establish prohibitions against fraud that are substantially similar to MA fraud provisions; the bill specifies penalties applicable to violations of these prohibitions. If federal law is changed to provide coverage for outpatient prescription drugs as a benefit under medicare or another program, DHFS must provide a report to the legislature that analyzes the differences between the federal program and the program under the bill and that provides recommendations concerning alignment, if any, of the differences. The bill appropriates \$2,000,000 in general purpose revenues in fiscal year 2001–02 to the joint committee on finance and authorizes DHFS to submit a proposal for review and approval by the department of administration and by the joint committee on finance, for expenditure of these moneys for administration of the program.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

13 outpatient care as a benefit under medicare or to provide similar coverage under  
14 another program, the department shall submit to appropriate standing committees  
15 of the legislature under s. 13.172 (3) a report that contains an analysis of the  
16 differences between such a federal program and the program under this section and  
17 that provides recommendations concerning alignment, if any, of the differences.

18 (12) After February 28, 2002, and before March 1, 2004, the department may  
19 not subject a manufacturer that enters into a rebate agreement under sub. (7) to prior  
20 authorization requirements for a prescription drug under this section that are an  
21 expansion of prior authorization requirements in effect under the medical assistance  
22 program on March 1, 2002.

23 (13) Except as provided in subs. (9) to (12), and except for the department's  
24 rule-making requirements and authority, the department may enter into a contract

**BILL**

1 with an entity to perform the duties and exercise the powers of the department under

6 department of administration a proposal for expenditure of the funds appropriated  
7 under section 20.865 (4) (a) of the statutes for administration of the prescription drug  
8 assistance for elderly program under section 49.688 of the statutes, as created by this  
9 act. The department of administration may approve, disapprove, or modify and  
10 approve any proposal it receives under this subsection. If the department of  
11 administration approves the proposal, the department shall submit the proposal,  
12 together with any modifications, to the cochairpersons of the joint committee on  
13 finance. If the cochairpersons of the committee do not notify the secretaries of  
14 administration and health and family services within 14 working days after  
15 receiving the proposal that the cochairpersons have scheduled a meeting for the  
16 purpose of reviewing the proposal, the secretary of administration may transfer from  
17 the appropriation under section 20.865 (4) of the statutes to the appropriation under  
18 section 20.435 (4) (a) of the statutes the amount specified in the proposal or any  
19 proposed modifications of the proposal for expenditure as specified in the proposal  
20 or any proposed modifications of the proposal and may approve any position  
21 authority specified in the proposal or any proposed modifications of the proposal. If,  
22 within 14 working days after receiving the proposal, the cochairpersons notify the  
23 secretaries of administration and health and family services that the cochairpersons  
24 have scheduled a meeting for the purpose of reviewing the proposal, the secretary of  
25 administration may not transfer any amount specified in the proposal or any

**BILL**

1 proposed modifications of the proposal from the appropriation under section 20.865  
2 (4) of the statutes and may not approve any position authority specified in the  
3 proposal or any proposed modifications of the proposal, except as approved by the  
4 committee.

REGEN

1 AN ACT *to amend* 49.47 (4) (b) 2m. b., 49.47 (4) (b) 2r., 49.47 (4) (b) 2w., 49.47 (4)  
2 (b) 3., 49.47 (4) (c) 1., 49.47 (4) (c) 3. and 49.47 (4) (i) 2. (intro.); and *to create*  
3 20.435 (4) (bv), 20.435 (4) (j), 20.435 (4) (jb), 49.45 (48), 49.47 (4) (aq) and 49.688  
4 of the statutes; **relating to:** expanding medical assistance income eligibility  
5 requirements for elderly persons; requiring pharmacies and pharmacists, as a  
6 condition of medical assistance participation, to charge elderly, low-income  
7 persons for prescription drugs no more than specific amounts; specifying  
8 requirements for rebate agreements between the department of health and  
9 family services and drug manufacturers; limiting prior authorization  
10 requirements under medical assistance; requiring the exercise of rule-making  
11 authority; making appropriations; and providing penalties.

**Analysis by the Legislative Reference Bureau**

Under current state law, pharmacies and pharmacists that are certified providers of medical assistance (MA) services are reimbursed, at a rate established by the department of health and family services (DHFS), for providing certain prescription drugs to MA recipients. Under the MA program, numerous prescription

**BILL**

drugs must be authorized by DHFS prior to being dispensed to MA recipients. Under current federal law, persons entitled to coverage under part B of medicare do not receive coverage for prescription drugs for outpatient care as a benefit.

Under current law, an individual who is 65 years of age or older, blind, or permanently disabled, is eligible to receive MA if he or she meets certain income and asset requirements. Currently, to satisfy the income requirements for MA eligibility, an individual who is 65 years of age or older, blind, or permanently disabled must have an income that does not exceed 133.33% of the maximum payment amount under the former aid to families with dependent children (AFDC) program or the combined benefit amount available under the federal supplemental security income (SSI) program.

Beginning March 1, 2002, this bill increases to 100% of the federal poverty level the maximum income level for eligibility for MA for individuals who are 65 years of age or older, blind, or permanently disabled.

This bill provides that, beginning March 1, 2002, persons who have applied for and have been found by DHFS to be eligible for prescription drug assistance and who have paid an annual enrollment fee of \$25 may use a card, issued by DHFS, to obtain certain prescription drugs for outpatient care at a rate that is the average wholesale price minus 5% or the maximum allowable cost, as determined by DHFS, whichever is less, plus a pharmacy dispensing fee. After an eligible person has paid a deductible by expending \$840 in a 12-month period for prescription drugs at this reduced rate, the person may obtain additional prescription drugs in that period by paying a copayment of \$10 for each generic drug and a copayment of \$20 for each drug that is not a generic drug. Persons who are eligible to obtain prescription drugs for these reduced charges are state residents who are at least 65 years of age, are not MA recipients, and have household incomes, as determined by DHFS, that do not exceed 185% of the federal poverty line for a family the size of the persons' eligible families. As a condition of participation by a pharmacy or pharmacist in the MA program, the pharmacy or pharmacist may not charge persons who are eligible for prescription drug assistance more than these amounts; as a part of the costs chargeable for the deductible, the pharmacy or pharmacist may include a dispensing fee but may not charge a dispensing fee after the deductible is met. If a person who is eligible has other available coverage for prescription drugs, the program does not apply to the costs for prescription drugs available under that other coverage.

Under the bill, DHFS or an entity with which DHFS contracts may enter with drug manufacturers into rebate agreements that are modeled on federal medicaid rebate agreements, under which the manufacturer must make payments to the state treasurer for deposit in the general fund for the manufacturer's drugs that are prescribed and purchased under the program. The amount of the rebate payment under the agreement is required to be determined by the method that is specified under federal medicaid rebate agreements. The amounts of the rebate payments must, in turn, together with general purpose revenues, be paid by DHFS to pharmacies or pharmacists that have reduced charges for prescription drugs for the eligible persons. Payment is at the average wholesale price minus 5% or the maximum allowable cost, as determined by DHFS, whichever is less, minus any

**BILL**

copayment made, plus a dispensing fee. If a manufacturer enters into a rebate agreement, DHFS may not, after February 28, 2002, and before March 1, 2004, expand the prior authorization requirements under the MA program or under the prescription drug program created under the bill for prescription drugs manufactured by that manufacturer beyond those prior authorization requirements in effect under the MA program on March 1, 2002.

Under the bill, DHFS is authorized to enter into a contract with an entity to perform DHFS' duties and exercise its powers, other than rule making, under the prescription drug assistance program. DHFS must, under the bill, promulgate rules that specify the criteria to be used to determine household income for persons eligible for prescription drug assistance. Prescription drugs for which the reduced charges must be made are those that are available as an MA benefit and that are manufactured by a manufacturer that enters into a rebate agreement with DHFS. DHFS must calculate and transmit to pharmacies and pharmacists that participate in the MA program the prices at the discounted rate that must be charged to certain eligible persons in meeting the deductible for prescription drugs and must periodically update this information and transmit the updated information to pharmacies and pharmacists. DHFS must monitor compliance by pharmacies and pharmacists with the requirement to charge eligible persons for the specified prescription drugs at the reduced amounts and annually report to the legislature concerning the compliance. DHFS also must promulgate rules that establish prohibitions against fraud that are substantially similar to MA fraud provisions; the bill specifies penalties applicable to violations of these prohibitions. If federal law is changed to provide coverage for outpatient prescription drugs as a benefit under medicare or another program, DHFS must provide a report to the legislature that analyzes the differences between the federal program and the program under the bill and that provides recommendations concerning alignment, if any, of the differences. The bill appropriates \$2,000,000 in general purpose revenues in fiscal year 2001-02 to the joint committee on finance and authorizes DHFS to submit a proposal for review and approval by the department of administration and by the joint committee on finance, for expenditure of these moneys for administration of the program.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
