

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRBs0138/1dn
DAK:jld:jf

June 7, 2001

To Representative Wasserman:

Because Senate Substitute Amendment 1 to 2001 Senate Bill 1 (the basis for this draft) was drafted some time ago, there may be refinements that could be incorporated into the draft that have come about as thinking has evolved on prescription drugs. If this substitute amendment passes in committee, please let me know so that I might discuss with you at a later date any refinements that you might be interested in incorporating into an amendment to the substitute amendment. Note that, for instance, the Joint Finance Committee has recently changed the projected medical assistance prescription drug reimbursement rate; that rate is referenced in s. 49.688 (1) (e) in this draft.
