Analysis by the Legislative Reference Bureau

Current law generally limits the increase in the total amount of revenue that a school district may receive from general school aids and property taxes ~~to approximately \$209 per pupil in the 1998-99 school year and in subsequent school years~~ to the amount of revenue increase allowed per pupil in the previous school year, increased by the percentage change in the consumer price index.

This bill increases the school district's revenue limit in any school year by an amount equal to the sum of the school district's unanticipated expenditures in the previous school year. An unanticipated expenditure is an expenditure for any of the following purposes that exceeds the school district's average expenditures for that purpose for the three previous school years: utilities, maintenance, security, debt service on obligations issued to pay the costs of complying with federal laws and regulations, transportation, in service related to educational technology changes in the curriculum, legal expense, development of peer review or mentoring programs for school district staff, special assessments for public improvements, and any other purpose specified by the department of public instruction by administrative rule.
