# Analysis by the Legislative Reference Bureau

This bill creates an income tax and franchise tax credit for a business to construct, equip, operate, or provide a day care center for the children of its employees during work hours. A business may claim as a credit any of the following amounts, but not exceeding \$50,000 a year: 1) 50% of the amount the business paid to construct and equip a day care center that the business owns and operates; 2) 50% of the amount the business paid to operate its own day care center; and 3) if the business does not construct its own day care center, 50% of the amount the business paid to a day care center to provide day care to the children of its employees. The total amount of all such credits, for all businesses, will not exceed \$1,500,000 a year.

Partnerships, limited liability companies, and tax-option corporations compute the credit but pass it on to the partners, members, and shareholders in proportion to their ownership interests. If a business claims a credit that exceeds its tax liability, the state will not issue a refund check, but the business may carry forward any remaining credit to subsequent taxable years.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
