### ***Analysis by the Legislative Reference Bureau***

Current law limits the annual amount of revenue (property taxes and general school aid) that a school district may receive to approximately \$220 per pupil in the 2000–01 school year. This bill eliminates these revenue limits. Current law also requires the department of public instruction, the department of administration, and the legislative fiscal bureau to certify annually to the joint committee on finance an estimate of the amount necessary in the general school aid appropriation, which, in combination with the amounts in the other state aid and the school levy tax credit appropriations, would fund two-thirds of school funding. This bill eliminates the two-thirds funding requirement and increases the amount of general school aid appropriated.
