Fiscal Estimate Narratives DOR 4/9/01

LRB Number	01-1948/1	Introduction Number	AB-235	Estimate Type	Original	
Subject						
Reciprocity within a county for alcohol beverages operator's licenses						

Assumptions Used in Arriving at Fiscal Estimate

Current law requires municipalities to issue alcohol beverage operator's licenses, commonly called bartender's licenses. An operator's license is valid only in the municipality that issued the license. No retail seller of alcohol beverages may be open for business unless the licensee or permittee, or a person who possesses a manager's license or an operator's license, is present and responsible for the acts of all persons serving alcohol beverages.

This bill generally requires a municipality to accept an operator's license issued by another municipality located in the same county, subject to certain conditions. The person to whom the operator's license is issued must file a certified copy of the operator's license with the municipality and pay the applicable license fee. A municipality that does not accept the validity of a person's operator's must notify the person in writing of the reasons for the decision. This bill does not require a municipality to accept the validity of a temporary or provisional operator's license issued by another municipality.

The bill has no effect on state alcohol beverage tax revenues. No additional administrative costs are expected.

Long-Range Fiscal Implications

No long range fiscal implications
