

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

April 23, 2001

I don't know what effect this will have on the formula for paying plan costs in s. 149.143. I assume that all premiums will have to be raised to a level that will still pay 60% of plan costs even with the offsets, which will result in much higher premiums for those who do not have drug expenses.
