| Increase the recycling tipping fe | e to \$10 | | | |

Assumptions Used in Arriving at Fiscal Estimate

Bill Summary: This bill will increase the recycling tipping fee for solid waste disposed of at a landfill from the current \$0.30 per ton to \$10.00 per ton. High volume industrial wastes, as defined in s. 289.01(16), Stats., remain exempt from this fee under the bill. In addition, the bill increases recycling grants to local units of government by \$57 million in fiscal years 2002 and 2003.

Fiscal Estimate: This bill will increase revenues to the recycling fund by \$66 million annually, reversing a projected deficit, and increase costs to local governments by an estimated \$10.6 million annually.

State:

Based on 2000 data, the Department assumes that 6.8 million tons of solid waste (excluding high volume industrial waste) will be disposed of in landfills annually. Increasing the tonnage fee by \$9.70 will generate an additional \$66 million in revenue to the state (6.8 million x \$9.70), reversing a deficit in the Recyling Fund projected under the current \$0.30 per ton fee.

Local:

Again based on 2000 data, the Department assumes that this bill will increase costs to local governments by approximately \$10.6 million annually. In 2000, local governments or their service contractors disposed of 1.1 million tons of solid waste, or

16 % of the total. The Department assumes that local governments will continue to account for 16 % of the total amount of solid waste disposed of in landfills, and will therefore account for 16 % of the increased revenue under this bill--or approximately \$11 million (\$66.0 million x 16%). The remaining \$55 million raised by the fee increase proposed in this bill would be paid by commercial businesses (approximate \$43 million) and out-of-state generators using Wisconsin disposal facilities (approximately \$12 million).

Long-Range Fiscal Implications

None.
