AN ACT *to repeal* 149.10 (8b), 149.16 (1) and 149.16 (5); *to amend* 149.15 (3) (g); and *to create* 149.15 (3) (g) 2., 149.16 (1m), 149.16 (3m), 149.16 (6) and 149.162 of the statutes; **relating to:** a competitive bidding process for administration of the health insurance risk–sharing plan.

Analysis by the Legislative Reference Bureau

The health insurance risk—sharing plan (HIRSP) under current law provides major medical health insurance coverage for persons who are covered under medicare because they are disabled, persons who have tested positive for the human immunodeficiency virus, and persons who have been refused coverage, or coverage at an affordable price, in the private health insurance market because of their mental or physical health condition. Also eligible for coverage are persons who do not currently have health insurance coverage, but who were covered under certain types of health insurance coverage for at least 18 months in the past. HIRSP is administered by the department of health and family services (DHFS), in conjunction with a plan administrator and a board of governors (board). Under current law, the plan administrator is the same fiscal agent with which DHFS contracts to administer the medical assistance program.

This bill eliminates the requirement that the plan administrator be the fiscal agent for the medical assistance program and provides for a competitive, request–for–proposals process for selecting the plan administrator. Under the bill, the board must establish an oversight committee to assist in the selection process. The committee must develop and recommend to the board the request for proposals,

which must specify and describe the work to be performed and the evaluation process and criteria that will be used in selecting the plan administrator. The bill lists the minimum specifications that the request for proposals must include. DHFS and the board must approve and prepare and issue the request for proposals that is actually used in the selection process. The committee must evaluate the proposals that are submitted in response to the request for proposals and may negotiate with, and request best and final offers from, up to three of the offerors that are the most likely to receive the contract for administration of HIRSP. After considering the recommendation of the committee on the selection of the plan administrator, DHFS and the board must award the contract for plan administration to the person that DHFS and the board determine offers the best combination of price and technical expertise. The administration contracts awarded under the process under the bill must have three–year terms running from July 1 to June 30, with the first contract under the new selection process beginning on July 1, 2002.

The bill provides that the plan administrator will be paid as provided in the contract for direct and indirect expenses that DHFS determines are incurred in the administration of HIRSP. The bill requires the plan administrator to submit regular reports on the operation of HIRSP to DHFS and the board. Since DHFS and the board select the plan administrator together in the process under the bill, the bill eliminates a provision in current law that requires DHFS to obtain the approval of the board before implementing any contract with the plan administrator.
