

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRBa0685/1dn
ARG:kmg:kjf

September 28, 2001

The attached draft is similar to Assembly Amendment 1 to AB-374 (LRBa550/1) but includes modifications deleting references to vehicles transporting prescription drugs and to lights of organ transport vehicles. (The latter provisions are included in Assembly Amendment 3, offered by Representative Stone and recommended by committee for passage.) Accordingly, the attached amendment allows vehicles transporting medical devices and equipment (which would include artificial and synthetic implants) to be designated as authorized emergency vehicles (and therefore be entitled to the privileges afforded such vehicles) and allows these vehicles to be equipped with red or red and white flashing lights. The attached amendment does not include any treatment of organ transport vehicles. Is this consistent with your intent?

If you have any questions, please call.
