1     **AN ACT to amend** 71.05 (6) (b) 21. of the statutes; **relating to:** increasing the  
 2             amount of the individual income tax subtract modification for social security  
 3             benefits.

---

### *Analysis by the Legislative Reference Bureau*

In general, under current law, 50% of certain social security benefits is taxed by this state once the recipient's income reaches \$34,000 for a single individual or \$44,000 for a married couple filing jointly, while the federal government taxes 85% of these same benefits. This bill exempts from taxation completely the social security benefits which are included in the calculation of a taxpayer's federal adjusted gross income.

This bill will be referred to the joint survey committee on tax exemptions for a detailed analysis, which will be printed as an appendix to this bill.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
