### ***Analysis by the Legislative Reference Bureau***

Under current law, the department of natural resources (DNR) may issue trapping licenses only to residents. To be issued a license, most residents must successfully complete instruction under the trapper education program administered by DNR. Residents who are exempt from this requirement include persons who held state trapping licenses on or before May 12, 1992, and farmers.

This bill creates a nonresident trapping license and establishes a fee for the nonresident license that is substantially higher than the fee for the resident license. Under the bill, DNR may issue a trapping license only to a nonresident who successfully completes the trapper education course in this state or a similar course in another state. The bill provides no exemptions for nonresidents from this licensing requirement.

For further information see the ***state and local*** fiscal estimate, which will be printed as an appendix to this bill.
