

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRB-3220/1dn
ARG:wlj:jf

May 8, 2001

It is my understanding that you want s. 348.01 (2) (am), stats., amended to clarify that certified stationary scales must be not only tested for accuracy, but that the test results must be satisfactory. I have made changes to the language suggested in the request to accomplish this objective, as the term "specifications, tolerances, standards, and procedures" in the existing statute refers to standards for the testing rather than standards for the scale.

If you have any questions, please feel free to call or e-mail.
