#### ***Supplement to the federal historic rehabilitation tax credit***

Under current law, a person who owns an income-producing historic building may claim a federal income tax credit that is equal to 20% of certain costs to rehabilitate the historic building. To claim the credit, the building must be listed, or be eligible for listing, on the national register of historic places or located in certain national, state, or local historic districts and the rehabilitation work must comply with standards established by the secretary of the interior.

Under current law, a person who may claim the federal income tax credit for rehabilitating an income-producing historic building may also claim a state income tax or franchise tax credit that is equal to 5% of certain costs to rehabilitate the historic building. To claim the credit, the person must include with the person's tax return evidence that the secretary of the interior approved the rehabilitation work before the rehabilitation work began.

Under this bill, a person may claim the state income and franchise tax credit for rehabilitating an income-producing historic building, if the person includes with the person's tax return evidence that the state historic preservation officer recommended the rehabilitation work for approval by the secretary of the interior before the rehabilitation work began.

**ASSEMBLY BILL 624**

Under current law, each partner in a partnership is allocated a portion of any tax credit that the partnership may claim, including the credit for rehabilitating a historic building, based on each partner's ownership interest. Under this bill, a partner may also be allocated a portion of the tax credit for rehabilitating a historic building in a manner specified in an agreement with the other partners.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
