Infecting animals; threatening to infect animals									

## Assumptions Used in Arriving at Fiscal Estimate

This bill prohibits threatening to infect livestock or wild deer with a contagious or infectious disease and classifies the crime as a class D felony.

It is impossible to predict the number of violations that would occur if this bill is enacted but the number is not expected to be significant. As a result any additional workload that might occur is expected to be absorbed by existing court personnel.

## **Long-Range Fiscal Implications**
