Rep. Mark Miller -

wants a bill to reverse the Gov.

neto eliminating funding for DW -

Solid wants. (p. 36 of neto mag)

SRM

and 3226k to remove the solid waste facility enforcement requirements and the recycling efficiency incentive grant program requirements. I object to placing the burden of enforcing recycling laws on solid waste facilities. Enforcement is a governmental responsibility, and it is unfair to punish a solid waste facility or hauler for not knowing all contents of the waste it receives. I also object to the restrictions placed on the department's ability to develop a recycling efficiency incentive grant. My vetoes retain \$1,900,000 for grants under this program, and I am requesting the department to solicit input from the public, responsible units, businesses and other interested groups on development of this program.

Sections 3225c and 3225f establish a per capita grant formula beginning with grants awarded for 2002. Grants would be awarded on a per capita basis at a rate of \$5.30 per capita. Beginning with grant year 2005, recipients that are not eligible for a recycling efficiency grant would be awarded grants at a rate of \$3.80 per capita. I am vetoing these sections because I object to the effect redistribution will have on many communities. Smaller, rural communities in particular would receive less funding than under the current formula; whereas large, urban communities would gain additional funding. This redistribution is not based on the cost-effectiveness and efficiency of the local programs, merely population.

Section 9137 (1km) provides the Department of Natural Resources with 1.0 FTE SEG position to be funded with existing monies. I am vetoing this section because with the significant base budget reductions to the department included in this budget bill, it is inappropriate to require the department to further reallocate funds for this position.

Section 395 [as it relates to s. 20.285 (1) (tb) and (tm)] provides funding for recycling education and solid waste research. I object to this funding because the limited resources for recycling should be focused on implementation of effective programs. By lining out the University of Wisconsin's s. 20.285 (1) (tb) and (tm) appropriations and writing in \$0, I am vetoing the part of the bill which funds this provision. I am also requesting the Department of Administration secretary not to allot these funds.

Sections 3619k, 3619m, 3619n and 3619s require the Recycling Marketing Development Board to give priority to projects that involve recovered materials that constitute a relatively high volume of solid waste generated in the state or that are hazardous to human health or the environment; to annually allocate up to \$200,000 for forgivable loans for projects that have exceptional potential to meet one of the qualifying considerations, but do not comply with the board's or the Department of Commerce's criteria for meeting fiduciary responsibilities; and in consultation with the Council on Recycling, to annually establish a list of materials for which the board may award financial assistance. I am vetoing these sections because they create additional administrative burdens for the board and infringe on the board's authority to determine how to best use its limited resources.

My vetoes retain the increase in the state tipping fee to allow the recycling program to continue and to begin exploring different approaches to the current program. The Department of Natural Resources should closely monitor the pilot program for compliance with landfill bans and the recycling efficiency incentive grant program. The effects of these programs should be considered in the proposal I am requesting the department to submit for the 2003-05 biennial budget.
