Date

You had requested that this draft prohibit DNR from requiring the removal of fish shanties before the dates specified in the draft from waters in the "northern zone" of the state. The only references I could find to the "northern zone" were contained in certain DNR materials relating to bass management zones. The region described in this draft is based on a description of the northern bass management zone. Because I was not sure whether this region accurately describes the area you intended to be covered, I have prepared this draft in preliminary form. If the description in the draft is accurate, please let me know and I will prepare the draft in final form.

If you have any other questions, please feel free to contact me.

Insert Anal.

Under current law, the department of natural resources (DNR) regulates the placement and removal of ice fishing shelters. This bill provides that DNR may not promulgate or enforce a rule that requires the owner of an ice fishing shelter to remove the shelter before the first Sunday following March 12, or if March 12 falls on a Sunday, before March 12, if the shanty is located on the ice of an inland water north of ~~state trunk highway~~ 64. The bill provides that this prohibition does not apply if DNR determines that the shanty must be removed for safety reasons.
