## Fiscal Estimate Narratives

<b>Subject</b> Prescriptions for children with attention deficit hyperactivity disorder		

### Assumptions Used in Arriving at Fiscal Estimate

This bill requires any physician who diagnoses a child (any person less than 18 years old) with attention deficit hyperactivity (ADHD) and issues a prescription order for treatment of the disorder to provide certain information to the parent or guardian of the child or to an adult who is with the child at the time the prescription order is issued, if any.

There would be little or no fiscal impact to the agency.
