(2)(b) Upon application, the examining board may grant a veterinary postgraduate training permit to a person undertaking intern or resident training at a school of veterinary medicine in this state. ~~The applicant shall submit evidence that the applicant has successfully completed the national board examination and the clinical competency test, is scheduled to take the national board examination and clinical competency test for the first time, or is awaiting results on the national board examination and clinical competency test.~~ The only purpose of the veterinary postgraduate training permit is to provide opportunities in this state for the postgraduate education of persons who have received the degree of doctor of veterinary medicine but who have not yet met the requirements for licensure in this state. GEN. CAT:

1 AN ACT ...; relating to: veterinary postgraduate training permits.

***Analysis by the Legislative Reference Bureau***

Under current law, with certain exceptions, a person may not practice veterinary medicine unless the veterinary examining board (board) has issued license to the person. One of the exceptions applies to a person who is an intern or resident at a school of veterinary medicine in this state. The board may issue a veterinary postgraduate training permit to such a person if he or she either: 1) has successfully completed the national board examination and clinical competency test (examination and test); 2) is scheduled to take the examination and test for the first time; or 3) is awaiting the results of the examination and test. A person who is issued a postgraduate training permit may practice veterinary medicine on privately owned animals only within the scope of the person's internship or residency program.

This bill changes the requirements for issuing a veterinary postgraduate training permit. Under the bill, the board may grant a permit to a person who is an intern or resident at a school of veterinary medicine in this state.
