 5 of privacy and providing a penalty.

Analysis by the Legislative Reference Bureau

Under current law, no person may knowingly install a surveillance device in any private place or use a surveillance device that has been installed in a private place with the intent to observe any nude or partially nude person without the consent of the person observed. A person who violates this prohibition may be fined not more than \$10,000 or imprisoned for not more than nine months or both.

This bill prohibits a person from doing any of the following: 1) looking into a private place in which a person may reasonably be expected to be nude or partially nude, if the person looking does so for the purpose of sexual arousal or gratification and without the consent of any person who is present in the private place; or 2) looking into the dwelling of another for the purpose of sexual arousal or gratification, with the intent to intrude upon or interfere with the privacy of another, and without the consent of any person who is present in the dwelling. A person who violates either of these "peeping tom" prohibitions may be fined not more than \$10,000 or imprisoned for not more than nine months or both. The bill also requires anyone who violates one of the peeping tom prohibitions or who violates the existing prohibition
