

2001 ASSEMBLY BILL 816

February 18, 2002 – Introduced by Representatives BERCEAU, URBAN, HUBER, SHILLING, RYBA, RICHARDS, POCAN and MILLER, cosponsored by Senator RISSER. Referred to Committee on Urban and Local Affairs.

- 1 **AN ACT** *to create* 66.0218 of the statutes; **relating to:** creating a procedure for
2 cities and villages to annex town peninsulas.

Analysis by the Legislative Reference Bureau

Currently, town territory that is contiguous to any city or village may be annexed to that city or village under several methods. Three of the methods of annexation include the following: 1) direct annexation, under which a petition for annexation that was signed by the required number of electors and landowners is filed with the city or village clerk; 2) annexation by referendum, under which a petition for referendum that was signed by the required number of electors and landowners is filed with the city or village clerk, and a referendum is held and passes in the town; and 3) annexation by court order and referendum, under which the governing body of a city or village adopts a resolution declaring its intention to apply to the circuit court for an order for an annexation referendum. If the city or village submits the resolution and the proper supporting documents and if no petition of protest is filed with the court or if the petition is found by the court to be insufficient, the court shall order the referendum to be held. If the referendum passes in the town, the annexation occurs.

Under the first two of these current methods of annexation, no annexation proceeding in a county with a population of at least 50,000 is valid unless the person publishing a notice of annexation or the person who files the petition for direct annexation sends certain information, such as a legal description and a scale map of the territory proposed to be annexed, to the department of administration (DOA) within five days of the publishing of the notice or filing of the petition. Within 20 days

ASSEMBLY BILL 816

after receipt of the information, DOA may mail to the clerks of the town and city or village that are involved with the proposed annexation a notice that states DOA's opinion that the annexation is against the public interest and that advises the clerks of the reasons for its decision.

Another method of annexation is direct annexation by unanimous approval. If a petition for direct annexation by unanimous approval signed by all of the electors residing in the territory and the owners of all of the real property in the territory is filed with the city or village clerk and the town clerk of all of the involved towns, along with a scale map and legal description of the property to be annexed, the governing body of the city or village may, generally, annex the property by a two-thirds vote of the body. Such an annexation, however, is subject to DOA review as if the annexation petition were for direct, but not unanimous, annexation or annexation by referendum.

Generally, cities and villages may also annex territory that is owned by the city or village and that lies near but not necessarily contiguous to the city or village by enacting an ordinance to annex such territory.

This bill creates a new method for a city or village to annex a town peninsula, which is defined under the bill as town territory, the boundary of which is not completely surrounded by a city or village but is contiguous to one or more cities or villages for at least 75% of its length, excluding areas that border on water, or on land whose condition prohibits development, except that the excluded areas of the border may not exceed 33% of the length of the boundary of the territory that is sought to be annexed.

Under the bill, a city or village may enact an annexation ordinance if the annexing city or village is contiguous to more than 50% of the peninsula's length, if the annexing city or village is capable of providing public services to the territory in the peninsula at a level that at least equals the level of service that is being provided by the town, and if the annexation will reduce any existing problems of duplicative public services being provided in the same area by multiple local governments. The bill defines "public services" to include police and fire protection services; sewer and water treatment; building, health, and fire prevention inspections; planning; and public works services.

Upon enactment of the annexation ordinance, the city or village clerk is required to forward to the secretary of state copies of the ordinance, a scale map, and the plat of the city or village, including the annexed territory, and the secretary of state is required to forward copies of the ordinance, scale map, and plat to a number of state agencies.

An ordinance enacted under the bill takes effect on the first day of the second month beginning after enactment.
