DRAFTER'S NOTE FROM THE LEGISLATIVE REFERENCE BUREAU

January 30, 2002

I made the notice apply only to defined network plans since other types of health insurance do not limit an insured to obtaining, or provide an incentive to an insured to obtain, services from any particular provider. The California law also applied to Medi–Cal. I don't know what, if anything, is comparable in Wisconsin. Let me know if you think the notice requirement should apply to any other types of policies, plans, or programs.
