### *Analysis by the Legislative Reference Bureau*

This bill provides a bonus payment to persons who served on active duty under honorable conditions in the U.S. armed forces before January 1, 2003, and during a war period or a crisis, such as in Lebanon in 1982, Libya in 1986, Somalia in 1992, or Bosnia in 1995. To be eligible for a payment under this bill, the veteran must have been a resident of this state at the time of his or her enlistment or induction into the armed forces. Under the bill, the payment may be made to the veteran, or, if he or she is deceased, to a person designated by the veteran or to his or her surviving spouse, children, or parents. Under the bill, the amount of the payment may not exceed \$500 and is determined by multiplying the number of months of service in the contiguous 48 states and District of Columbia by \$10 and the number of months of service outside the contiguous 48 states by \$15. If the war veteran was killed or wounded in combat or disabled in a combat zone, the bill provides the veteran an additional \$5 per month of that service. The bill requires the department of veterans affairs to stagger the payments. For example, the department is required to make payments between July 1, 2003, and June 30, 2004, on behalf of a veteran who service ended before January 1, 1950, while the payments on behalf of a veteran who served between January 1, 1960, and January 1, 1980, are made between July 1, 2005, and June 30, 2006.
