

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRB-4346/1dn
MES:kmg:pg

February 8, 2002

Representative Pettis:

This version of the draft is identical to the /P1 version. I don't think that any changes are needed to authorize the department of revenue to promulgate rules to administer this program. Section 71.80 (1) (c) of the statutes states that "The department may make such regulations as it shall deem necessary in order to carry out this chapter" and your bill affects only chapter 71.

To memorialize the U.S. Congress to adopt a similar program, an assembly joint resolution must be prepared. If you could forward to me the statistical or other factual information that you would like me to include in the "Whereas" clauses of the resolution, I will be happy to draft it. Please let me know if you have any further questions.
