

## 2001 ASSEMBLY JOINT RESOLUTION 5

January 16, 2001 – Introduced by Representatives MUSSER, LA FAVE, RYBA, NASS, HOVEN and HAHN, cosponsored by Senators GROBSCHMIDT, WIRCH, RISSER and SCHULTZ. Referred to Committee on State Affairs.

1     **Relating to:** memorializing Congress to establish daylight savings time year-round  
2           throughout the United States.

3           Whereas, many persons enjoy daylight savings time during part of the year;  
4     and

5           Whereas, daylight savings time accords better with the rhythms of human life  
6     and allows people to spend more time in outdoor activities in the evening; and

7           Whereas, daylight savings time increases productivity, improves health,  
8     increases recreational activities, and reduces auto accidents, crime, and energy  
9     consumption; and

10          Whereas, during World Wars I and II and during the oil crises of 1974 and 1975,  
11     our nation turned to year-round daylight savings time as an economy measure to  
12     conserve energy and improve the quality of life; and

13          Whereas, arguments against daylight savings time, such as the claim that it is  
14     dangerous in the morning, are not supported by statistics; and
