ADMINISTRATION

Bioterrorism Preparation and Response Grant Program

(LFB Paper #1101)

Motion:

Move to delete \$3,600,000 GPR in 2001-02 and all provisions in the bill that relate to the terrorism preparation and response grant program.

Instead, direct the Department of Health and Family Services to include, in its plan for the use of federal funds available to states under P.L. 107-117, a proposal to allocate up to \$3,600,000 of the state's total allocation to fund the types of activities that would have been funded under the Governor's proposed bioterrorism preparation and response grant program activities, to the extent that these activities are eligible for funding under P.L. 107-117.

Note:

Wisconsin has been notified that it will receive approximately \$19.3 million for bioterrorism preparedness activities under P.L. 107-117 including: (a) \$16,940,986 to defend against bioterrorism-related events and deal with other public health emergencies; and (b) \$2,327,920 for regional hospital planning and preparedness. According to the U.S. Department of Health and Human Services (DHHS), 20% of the federal funding will be made available to states immediately, and the remainder will be released subject to federal approval of a plan submitted by DHFS, due no later than April 15, 2002. The funds must be spent or encumbered by August 30, 2003.

According to information provided by DHHS, the \$16.9 million must be used for: (a) preparedness, planning and readiness assessment; (b) surveillance and epidemiology capacity; (c) laboratory capacity-biologic agents; (d) communicating health risks and health information dissemination; and (d) education and training of public health officials, infectious disease, emergency department personnel and other health care providers.

At this time, it is not known the extent to which this federal funding may be used to support the activities that would be funded under the Governor's proposed terrorism preparation and response grant program. The federal grant criteria indicates that, once states have achieved some

critical benchmarks, funding can be used for enhanced capacities, including communications systems for local public health officials and law enforcement. In addition, some of the training activities that the Governor proposed to use the new grant program to support may be an eligible use under the federal funding criteria.

However, any use of the federal funding to support these activities would need to be included in the plan DHFS is required to submit to DHHS by April 15, 2002, and approved by DHHS. It is possible that the budget reform bill will not be enacted before that date.

[Change to Bill: -\$3,600,000 GPR]

with Friendly amendment providing for JFC review
