REGULATION AND LICENSING

Modification to Scope of Practice of an Educational Dentist's License

Motion:

Move to modify the current scope of practice provision that limits the holder of an educational dentist's license to the practice of dentistry only within educational facilities and only for the purpose of carrying out the licensee's teaching duties to provide instead that the licensee would be limited only to the practice of dentistry within educational facilities.

Note:

The motion would authorize a holder of an educational dentist's license to provide dental services that are not related to the licensee's teaching duties, provided the services were still provided in a clinical facility associated with the educational facility where the license holder practices.

Under current law, dentists who are visiting faculty members at the Marquette University School of Dentistry may receive an educational dentist's license to practice in Wisconsin, if they are in good standing to practice dentistry in another jurisdiction, have been offered full-time employment at the Marquette University School of Dentistry, demonstrate their competency, if required, to the Wisconsin Dentistry Examining Board, and pay the required credential fees. Currently, an educational dentist's license may be used only at the Marquette University School of Dentistry and only in connection with the visiting faculty member's teaching duties.
