Summary

99 s 0 325/2
Use LRB 325/2 except substitute "wild animal" for "deer". DNR currently has no legal authority to regulate the feeding of wild animals. They can only regulate baiting for the purposes of hunting. Artificially feeding wild animals treats them like domestic animals but wild animals cannot be vaccinated or given the health care that domestic animals need. DNR authority to regulate feeding is necessary in order for them to be able to respond and prevent disease outbreaks like chronic wasting disease in Dane/Iowa Counties and tuberculosis as in Michigan.

Fiscal Impact

A fiscal estimate prepared by the DNR indicates that there would be some one time costs for developing the rules that could be absorbed by the department.
