To Andy Engel:

The request for this amendment was that the amendment follow s. 255.06 (2) (g), stats., which requires that DHFS conduct a prevention and education program for women regarding osteoporosis. However, there is no known prevention for multiple sclerosis at this time, its etiology is unknown, and it is unclear whether early detection is helpful. Therefore, I have modified the language to exclude mention of prevention, risk factors, and early detection.
