8 and family services to establish criteria for distribution of this funding and to
9 develop a plan to eliminate waiting lists for services for persons with developmental

11 developmental disabilities to evaluate, and report to the legislature, the number of
12 persons with developmental disabilities on waiting lists for services at the end of
13 each calendar year; requiring rule-making; and making an appropriation.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

JOINT LEGISLATIVE COUNCIL PREFATORY NOTE: This draft was prepared for the joint legislative council's special committee on developmental disabilities. The draft contains the following provisions.

1. Family Support Program

Under current law, the department of health and family services is required to distribute not more than \$4,339,800 in each fiscal year for the family support program allocation of community aids funding. The draft increases funding for the family support program by \$700,000 in state fiscal year 2001–02 and by \$2,700,000 in state fiscal year 2002–03. As of December 1, 2000, an estimated 2,500 children were on waiting lists to receive services under this program. Over the 2001–03 biennium, a total of \$3,400,000 additional general purpose revenue could provide

services under the family support program for an estimated 400 children in fiscal year 2001-02 and 1,200 children in fiscal year 2002-03, based on the actual average per client cost of providing services under the program in calendar year 1999 (\$1,705). Counties may use these funds either to provide services to additional families with children on waiting lists or to provide additional services to underserved families.

Further, the draft provides that the increased funds must be used by counties as the nonfederal match for the community supported living arrangements (CSLA) medical assistance waiver, when a child is eligible both for CSLA and for the family support program. The draft also provides that the increased funds may be used by counties as the nonfederal match for the community integration program for persons with mental retardation (CIP-IB), when a child is eligible both for CIP-IB and for the family support program.

2. CIP-IB

Under current law, s. 46.278 governs the community integration program (CIP) for persons with mental retardation, commonly referred to as "CIP-IB". Under this program, a person who is diagnosed as developmentally disabled under the definition specified in s. 51.01 (5) and relocated from an institution other than a state center for the developmentally disabled, or who meets the intermediate care facility for the mentally retarded (ICF-MR) level of care requirements for medical assistance (MA) reimbursement in an ICF-MR and is ineligible for services under s. 46.275 or 46.277, may be eligible for this program.

The program authorizes the department of health and family services to serve MA recipients, who meet the level of care requirements for MA reimbursement in an ICF-MR, in their communities by providing home or community-based services as part of MA.

Currently, the state of Wisconsin provides funding at a daily rate of \$48.33 per day to serve these individuals under the CIP-IB program. This is MA funding, which is approximately 60% federal funds and 40% nonfederal funds.

This draft provides \$3,700,000 in fiscal year 2001-02 and \$3,700,000 in fiscal year 2002-03 to increase the CIP-IB daily rate from the current rate of \$48.33 per day.

3. Waiting Lists for Developmental Disabilities Services

The draft creates an appropriation in the department of health and family services (DHFS) to be used to provide services to persons who are on waiting lists for developmental disabilities services. The draft provides \$1,000,000 in fiscal year 2001-02 and \$7,000,000 in fiscal year 2002-03

to fund services for persons with developmental disabilities who are waiting for services. In distributing these funds, the DHFS must use the criteria established by the DHFS by rule. The rules must require that the funds be distributed to maximize the capture of federal funds. In addition, the rules must prohibit counties from supplanting funds allocated to developmental disabilities services with the funds received under this appropriation.

The rules must also require that the DHFS collect data from county departments on the number of persons requesting, but not receiving, developmental disabilities services. The data must indicate the number of these persons placed on waiting lists by the county department, as well as the length of time the person has been on a waiting list and person's severity of need. Further, the rules must provide that the funds appropriated under this draft be distributed by the DHFS utilizing this data. The rules must be submitted to the legislative council staff for review no later than the first day of the 6th month beginning after the effective date of this draft. However, the DHFS must administer this act prior to the promulgation of these rules according to procedures established by the DHFS.

This draft also requires the DHFS to develop a plan to eliminate waiting lists for services for persons with developmental disabilities in Wisconsin by the end of fiscal year 2004-05.

Finally, the draft requires the council on developmental disabilities under s. 15.197 (11n), stats., at the end of each calendar year, to evaluate the number of persons with developmental disabilities on waiting lists for services and report this information to the legislature as provided under s. 15.197 (11n), stats.

4. Lifespan Respite Care

Under current law, the department of health and family services (DHFS) uses general purpose revenues to contract with a private, nonprofit organization that prescribes criteria for, awards, and oversees grants to conduct respite care projects. ("Respite care" is care that is provided to a person with special needs, or a person at risk of abuse or neglect, in order to provide temporary relief to the caregiver of that person or when the caregiver is unable to provide care.) The organization may award grants to conduct respite care projects to county departments of social services, human services, community programs, or developmental disabilities services; governing bodies of federally recognized American Indian tribes or bands; or nonprofit or for-profit community-based private entities. The grant funds must be equally distributed among five administrative regions of the state, as prescribed by DHFS.

This bill increases an appropriation of general purpose revenues by a total of \$225,000 in fiscal year 2002-03 for the respite care program, including grant funds for one additional respite care project in each of the five administrative regions prescribed by DHFS and two additional respite care projects anywhere in the state.

5. Medical Assistance Trust Fund

This draft creates a medical assistance trust fund, consisting of all of the following:

(a) All federal moneys received, including moneys that DHFS may transfer from the appropriation under s. 20.435 (4) (o), stats., that are related to payments under s. 49.45 (6m) and are based on public funds that are transferred or certified under 42 CFR 433.51 (b) and used as the non-federal share of medical assistance funding.

(b) All public funds that are related to payments under s. 49.45 (6m) and that are transferred or certified under 42 CFR 433.51 (b) and used as the non-federal and federal share of medical assistance funding.

Moneys from this trust fund are used for providing funding increases for programs as specified in this draft in state fiscal years 2001-02 and 2002-03.

Analysis by the Legislative Reference Bureau

This bill is explained in the NOTES provided by the joint legislative council in the bill.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

PREFATORY NOTE: This bill was prepared for the joint legislative council's special committee on developmental disabilities. The bill contains the following provisions.

1. Family Support Program

Under current law, the department of health and family services is required to distribute not more than \$4,339,800 in each fiscal year for the family support program allocation of community aids funding. The bill increases funding for the family support program by \$700,000 in state fiscal year 2001-02 and by \$2,700,000 in state fiscal year 2002-03 and each fiscal year thereafter. As of December 1, 2000, an estimated 2,500 children were on waiting-lists to receive services under this program. Over the 2001-03 biennium, a total of \$3,400,000 additional general purpose revenue could provide services under the family support program for an estimated 400 children in fiscal year 2001-02 and 1,200 children in fiscal year 2002-03, based on the actual average per client cost of providing services under the program in calendar year 1999 (\$1,705). Counties may use these funds either to provide services to additional families with children on waiting lists or to provide additional services to underserved families.

Further, the bill provides that the increased funds must be used by counties as the nonfederal match for the community supported living arrangements (CSLA) medical assistance waiver, when a child is eligible both for CSLA and for the family support program. The bill also provides that the increased funds may be used by counties as the nonfederal match for the community integration program for persons with mental retardation (CIP-IB), when a child is eligible both for CIP-IB and for the family support program.

2. CIP-IB

Under current law, s. 46.278 governs the community integration program (CIP) for persons with mental retardation, commonly referred to as "CIP-IB". Under this program, a person who is diagnosed as developmentally disabled under the definition specified in s. 51.01 (5) and relocated from an institution other than a state center for the developmentally disabled, or who meets the intermediate care facility for the mentally retarded (ICF-MR) level of care requirements for medical assistance (MA) reimbursement in an ICF-MR and is ineligible for services under s. 46.275 or 46.277, may be eligible for this program.

The program authorizes the department of health and family services to serve MA recipients, who meet the level of care requirements for MA reimbursement in an

BILL

ICF-MR, in their communities by providing home or community-based services as part of MA.

Currently, the state of Wisconsin provides funding at a daily rate of \$48.33 per day to serve these individuals under the CIP-IB program. This is MA funding, which is approximately 60% federal funds and 40% nonfederal funds.

This bill provides \$3,700,000 in fiscal year 2001-02 and each fiscal year thereafter to increase the CIP-IB daily rate from the current rate of \$48.33 per day.

3. Waiting Lists for Developmental Disabilities Services

The bill creates an appropriation in the department of health and family services (DHFS) to be used to provide services to persons who are on waiting lists for developmental disabilities services. The bill provides \$1,000,000 in fiscal year 2001-02 and \$7,000,000 in each fiscal year thereafter to fund services for persons with developmental disabilities who are waiting for services. In distributing these funds, the DHFS must use the criteria established by the DHFS by rule. The rules must require that the funds be distributed to maximize the capture of federal funds. In addition, the rules must prohibit counties from supplanting funds allocated to developmental disabilities services with the funds received under this appropriation.

The rules must also require that the DHFS collect data from county departments on the number of persons requesting, but not receiving, developmental disabilities services. The data must indicate the number of these persons placed on waiting lists by the county department, as well as the length of time the person has been on a waiting list and person's severity of need. Further, the rules must provide that the funds appropriated under this bill be distributed by the DHFS utilizing this data. The rules must be submitted to the legislative council staff for review no later than the first day of the 6th month beginning after the effective date of this bill. However, the DHFS must administer this bill prior to the promulgation of these rules according to procedures established by the DHFS.

This bill also requires the DHFS to develop a plan to eliminate waiting lists for services for persons with developmental disabilities in Wisconsin by the end of fiscal year 2004-05.

Finally, the bill requires the council on developmental disabilities under s. 15.197 (11n), stats., at the end of each calendar year, to evaluate the number of persons with developmental disabilities on waiting lists for services and report this information to the legislature as provided under s. 15.197 (11n), stats.

4. Lifespan Respite Care

Under current law, the department of health and family services (DHFS) uses general purpose revenues to contract with a private, nonprofit organization that prescribes criteria for, awards, and oversees grants to conduct respite care projects. ("Respite care" is care that is provided to a person with special needs, or a person at risk of abuse or neglect, in order to provide temporary relief to the caregiver of that person or when the caregiver is unable to provide care.) The organization may award grants to conduct respite care projects to county departments of social services, human services, community programs, or developmental disabilities services; governing bodies of federally recognized American Indian tribes or bands; or nonprofit or for-profit community-based private entities. The grant funds must be equally distributed among five administrative regions of the state, as prescribed by DHFS.

This bill increases an appropriation of general purpose revenues by a total of \$225,000 in fiscal year 2002-03 and in each fiscal year thereafter for the respite care program, including grant funds for one additional respite care project in each of the five

administrative regions prescribed by DHFS and two additional respite care projects anywhere in the state.

5. Medical Assistance Trust Fund
