SECTION #.

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

1 AN ACT ~~relating to~~ consolidation of certain appropriations to the department  
2 of administration and making appropriations.

---

*Analysis by the Legislative Reference Bureau*

**STATE GOVERNMENT**

**OTHER STATE GOVERNMENT**

Currently, program revenue is appropriated to DOA in separate appropriations for: 1) transportation services; 2) printing, mail distribution, and records services; and 3) information technology processing and certain telecommunications services. The revenue is derived from moneys received from other state agencies. The appropriations for transportation, printing, document sales, mail distribution, and records services are limited to specified amounts and the appropriation for information technology processing and telecommunications services is limited only by the revenue received. This bill repeals the appropriation for printing, mail distribution, and records services and consolidates that appropriation with the other appropriations so that mail transportation, document sales, and records services are funded from the transportation services appropriation, and mail processing and printing services are funded from the information technology processing and telecommunications services appropriation.

Under the consolidations, revenue collected for one purpose may be used by DOA for a different purpose within the same appropriation account, subject to budgetary intent of the governor, JCF, and legislature, as specified in various budgetary documents.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
