Subject: Nonstat language - WATF draft

Hi Mark --

Could you add the following nonstat provisions to the WATF dissolution draft? The provisions will specify how the money is to be spent. I'm envisioning that, if this occurs, the WATF's accrued endowment will be awarded to TEACH and will be deposited in TEACH's 20.275 (1)(g) appropriation. From that appropriation, TEACH will "cut the checks" for the proposed expenditures. Here are nonstat provisions pertaining to DPI:

(1) In the 2001-02 fiscal year, TEACH shall award a grant of \$526,000 from the appropriation under section 20.275 (1)(g) to the department of public instruction to (a) upgrade and replace assistive technology devices and related software programs at the residential school for the blind and the visually impaired, and the regional centers; and (b) complete a network upgrade for the residential school campus. ✓

(2) In the 2001-02 fiscal year, TEACH shall award a grant of \$161,600 from the appropriation under section 20.275 (1)(g) to the department of public instruction to replace the automated system at the regional Library for the Blind and Physically Handicapped. ✓

There will be additional nonstat provisions but I wanted to get a start on sending some over. Let me know if you have any questions. Best, Steve

Hi Mark --

Here are two additional nonstat provisions regarding WATF, TEACH and DPI:

(1) In the 2001-02 fiscal year, TEACH shall award a grant of \$579,000 from the appropriation under section 20.275 (1)(g) to the department of public instruction to fund upgrades to the Wisconsin Informational Network for School Success (WINSS).

(2) In the 2001-02 fiscal year, TEACH shall award a grant of \$77,800 from the appropriation under section 20.275 (1)(g) to the department of public instruction to fund upgrades to the state school finance information system.

That should do it for now. Best, Steve

Hi Mark --

This should do it for now with the WATF nonstat language requests:

(1) In the 2001-02 fiscal year, TEACH shall award a grant of \$500,000 from the appropriation under section 20.275 (1)(g) to the department of public instruction to match a similar award from the National Geographical Society to create the Wisconsin Geographical Education Fund. ~~Delete DPI's (3)(ec) appropriation and replace it with a new appropriation.~~ Require DPI to enter into an agreement with the National Geographical Society to manage the fund. Income and appreciation from the fund shall be used to award grants and support programs to improve geographical education in Wisconsin, and must emphasize GIS use by students. If the Fund is dissolved, the original DPI grant and any accumulated and unexpended income shall revert back to DPI.

Analysis by the Legislative Reference Bureau

EDUCATION

OTHER EDUCATIONAL AND CULTURAL AGENCIES

Under current law, the state has participated in the formation and operation of the Wisconsin Advanced Telecommunications Foundation (foundation), which is organized as a nonstock corporation. As required under current law, the foundation has established an endowment fund, which consists of a one-time \$500,000 contribution by the state and contributions by telecommunications providers. As also required under current law, the foundation has established a fast start fund, which consists of contributions by telecommunications providers. Both funds are used by the foundation to provide funding for advanced telecommunications technology applications projects and efforts to educate telecommunications users about advanced telecommunications services. Current law also provides that if the foundation substantially ceases operations, the state's unencumbered contribution to the endowment fund must be returned to the state.

The foundation uses

This bill eliminates all provisions under current law regarding the foundation. In addition, the bill provides that, if the foundation grants the unencumbered balances of the endowment fund and the fast start fund to the technology for educational achievement in Wisconsin board of TECHNICAL in fiscal year 2001-02,

including the contributions made by telecommunications providers, then the following moneys that are received are transferred to ~~the department of public instruction (DPI)~~ for the following purposes: 1) \$579,000 for upgrading the Wisconsin Informational Network for School Success; 2) \$77,800 for upgrading the state school finance information system; 3) \$526,000 for completing a network upgrade and upgrading and replacing assistive technology devices and related software programs for the Wisconsin Center for the Blind and Visually Impaired; 4) \$161,600 for replacing the automated system at the Wisconsin Regional Library for the Blind and Physically Handicapped; and 5) \$500,000 for making a grant to the National Geographical Society Education Foundation for establishing a program for awarding grants and supporting programs for improving geographical education in the state, with an emphasis on student use of geographic information systems technology. The transfer of \$500,000 for making the grant to the National Geographical Society Education Foundation is contingent on that foundation's contribution of \$500,000 in matching funds for the program that is established.

Steve Milioto:

Please review this bill very ^gcarefully to make sure that it achieves your intent. In particular, please note the following:

1. It isn't necessary to require the TEACH board to make grants to DPI. Instead, the money received from the Wisconsin Advanced Telecommunications Foundation (WATF) will be deposited into the TEACH board's appropriation for gifts and grants (s. 20.275(1)(g), stats.) and then transferred to DPI's appropriation for money received from other state agencies (s. 20.255 (1)(ke), stats.).

2. The transfers are all contingent on WATF granting the balance of its funds to the TEACH board in fiscal year 2001-02. In addition, the National Geographical Society Education Foundation must make its matching contribution in fiscal year 2001-02. Is this okay, or do you want to allow some leeway if these things happen after fiscal year 2001-02?

Steve Milioto:

Please review this bill very carefully to make sure that it achieves your intent. In particular, please note the following:

1. It isn't necessary to require the TEACH board to make grants to DPI. Instead, the money received from the Wisconsin Advanced Telecommunications Foundation (WATF) will be deposited into the TEACH board's appropriation for gifts and grants (s. 20.275 (1) (g), stats.) and then transferred to DPI's appropriation for money received from other state agencies (s. 20.255 (1) (ke), stats.).
2. The transfers are all contingent on WATF granting the balance of its funds to the TEACH board in fiscal year 2001-02. In addition, the National Geographical Society Education Foundation must make its matching contribution in fiscal year 2001-02. Is this okay, or do you want to allow some leeway if these things happen after fiscal year 2001-02?

Subject: WATF Provisions - Even More!

Hi Mark --

Per our phone conversation, here is the piece of the WATF puzzle pertaining to the TEACH position:

1) Direct TEACH to expend \$45,770 in both years of the biennium from the appropriation under section 20.275 (1)(g) to support 1.0 FTE PR position.

Thanks Mark! Best, Steve

Under current law, the state has participated in the formation and operation of the Wisconsin Advanced Telecommunications Foundation (foundation), which is organized as a nonstock corporation. As required under current law, the foundation has established an endowment fund, which consists of a onetime \$500,000 contribution by the state and contributions by telecommunications providers. As also required under current law, the foundation has established a fast start fund, which consists of contributions by telecommunications providers. The foundation uses both funds to provide funding for advanced telecommunications technology applications projects and efforts to educate telecommunications users about advanced telecommunications services. Current law also provides that if the foundation substantially ceases operations, the state's unencumbered contribution to the endowment fund must be returned to the state.

This bill eliminates all provisions under current law regarding the foundation. In addition, the bill provides that, if the foundation grants the unencumbered balances of the endowment fund and the fast start fund to the technology for educational achievement in Wisconsin (TEACH) board in fiscal year 2001-02,

Department of Administration DOA

(INSERT 2A)

including the contributions made by telecommunications providers, then the following moneys that are received are transferred to DPI for the following purposes: 1) \$579,000 for upgrading the Wisconsin Informational Network for School Success; 2) \$77,800 for upgrading the state school finance information system; 3) \$526,000 for completing a network upgrade and upgrading and replacing assistive technology devices and related software programs for the Wisconsin Center for the Blind and Visually Impaired; 4) \$161,600 for replacing the automated system at the Wisconsin Regional Library for the Blind and Physically Handicapped; and 5) \$500,000 for making a grant to the National Geographical Society Education Foundation for establishing a program for awarding grants and supporting programs for improving geographical education in the state, with an emphasis on student use of geographic information systems technology. The transfer of \$500,000 for making the grant to the National Geographical Society Education Foundation is contingent on that foundation's contribution of \$500,000 in matching funds for the program that is established.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

1. The foundation makes the grant to DOA, not ^{to} the TEACH board.
2. Moneys are transferred from DOA's gift appropriation to a PR-S[✓] appropriation for the TEACH board that is created in the bill. There is nonstatutory language stating that the purpose of the transfer is to provide administrative and support services for the TEACH board to resolve the outstanding business of the foundation. Hi Mark --

Could you make the following changes to Draft 1694/3?

1) In Section 9140, add a provision that would transfer \$1,000,000 in each fiscal year from 20.505 (1) (j) to 20.292 (1) (km) (note: this is a new appropriation created in Draft 1988) to assist district schools in developing Internet courses under 38.04 (30) (c) and to establish an Internet site relating to such courses under 38.04 (30) (a) (See Draft 1988).

✓ 2) In Section 9140, add a provision that would transfer \$566,200 over the biennium from 20.505 (1) (j) to ~~20.275 (1) (gm)~~.

✓ 2) In Section 9140 (1) (a) 5., could we add language at the end of line 9 which would read something like, "telecommunications foundation, and of performing other duties as determined by the board's secretary, including but not limited to duties related to state administration of federal e-rate funding."?

✓ 3) In Section 9140 (1) (a) 5., change the amount from \$91,600 to \$136,200.

✓ 4) Specify that the TEACH Board should be expanded to include: (a) a representative of public elementary and secondary school administrators, appointed by the Governor and (b) a representative from the private sector who represents the either the technology or telecommunications industries, appointed by the Governor.

Let me know if you have any questions. Best, Steve

AN ACT ...; relating to: the budget.

Analysis by the Legislative Reference Bureau

EDUCATION

OTHER EDUCATIONAL AND CULTURAL AGENCIES

Under current law, the state has participated in the formation and operation of the Wisconsin Advanced Telecommunications Foundation (foundation), which is organized as a nonstock corporation. As required under current law, the foundation has established an endowment fund, which consists of a onetime \$500,000 contribution by the state and contributions by telecommunications providers. As also required under current law, the foundation has established a fast start fund, which consists of contributions by telecommunications providers. The foundation uses both funds to provide funding for advanced telecommunications technology applications projects and efforts to educate telecommunications users about advanced telecommunications services. Current law also provides that if the foundation substantially ceases operations, the state's unencumbered contribution to the endowment fund must be returned to the state.

This bill eliminates all provisions under current law regarding the foundation. In addition, the bill provides that, if the foundation grants the unencumbered balances of the endowment fund and the fast start fund to DOA in fiscal year 2001-02, including the contributions made by telecommunications providers, then

the following purposes: 1) \$136,200 for

\$2,000,000 of the moneys that are received are transferred to the technical college system board for establishing an Internet site that lists all the Internet courses provided by the technical colleges and to assist technical colleges to develop Internet courses.

In addition, if the foundation makes the grant described above, the bill provides that ~~the~~ ^{following} moneys that are received are transferred to the technology for educational achievement in Wisconsin (TEACH) board for administrative and support services to resolve the outstanding business of the foundation. **INSERT 2A**

Also under the bill, if the foundation makes the grant described above, then the following moneys that are received are transferred to DPI for the following purposes:
1) \$579,000 for upgrading the Wisconsin Informational Network for School Success; 2) \$77,800 for upgrading the state school finance information system; 3) \$526,000 for completing a network upgrade and upgrading and replacing assistive technology devices and related software programs for the Wisconsin Center for the Blind and Visually Impaired; 4) \$161,600 for replacing the automated system at the Wisconsin Regional Library for the Blind and Physically Handicapped; and 5) \$500,000 for making a grant to the National Geographical Society Education Foundation for establishing a program for awarding grants and supporting programs for improving geographical education in the state, with an emphasis on student use of geographic information systems technology. The transfer of \$500,000 for making the grant to the National Geographical Society Education Foundation is contingent on that foundation's contribution of \$500,000 in matching funds for the program that is established.
