¶ 1. This draft corresponds to caucus number 1056, except that the recycling market development board provisions are in a separate draft.

¶ 2. This draft does not contain the extra position (the 18.5 STET ~~th~~ position) for DNR because I have not received information about from which appropriation it should be funded or about how much, if any, funding to provide for; if I can add the position in a redraft, if there is time.

¶ 3. The draft changes s. 287.07(7)(a) and requires DNR to promulgate rules to implement that change. It would probably be a good idea to add a delayed effective date for that change.

Every position in state government is funded from a specific appropriation. Even if funding is not being provided, the position authorization must be associated with an appropriation. If you can tell me which division this position would be in, I think that Kendra Bonderud can help me identify the correct appropriation.

John and Becky,
I told DNR that they will have to find the money from their existing appropriations so all they need is the position authority, which we are giving them by going to 18.5.

John,

I have received the instructions for the recycling efficiency incentive planning grant program and you told me on Thursday that I should change the number of additional recycling positions from 17.5 to 18.5, but I still do not know from which appropriation that additional position should be funded and how much money, if any, to provide for that position. (See my email message dated June 214, 6:04 p.m.)

Here are the specifics: the position should be attached to the Bureau of Communications and Education in the Division of Community Assistance and External Relations in DNR. Thank you for your help.
