FE Sent For:

<END>

**b) Allow Civil Charges in Domestic and Sexual Abuse Cases**

*This proposal would change Wisconsin statutes to allow domestic and sexual abuse victims to bring civil charges against their assailants.*

Currently the statutes only allow civil actions for victims of certain property-related crimes, gang-related crimes, assault, and intentional infliction of emotional distress.

Common law allows domestic and sexual abuse victims to sue in civil court but lack of statutory authority to do so means judges cannot separate attorney fees from the civil award. As a result, attorney fees must come out of the award itself, which makes attorneys less willing to take on these cases unless the potential jury award is very high.

**c) Mandatory Restitution**

*This proposal would require that individuals convicted of domestic abuse make restitution to their victims as a condition of their sentence.*

Currently, only 7% of all sentences for domestic abuse include restitution.

**d) Medical and Nursing School Training**

*This proposal would require the state to work with our schools of nursing and our medical schools to ensure a greater emphasis on domestic abuse education.*

One key to stopping domestic abuse is the ability of health care professionals to recognize the signs of abuse on their patients and intervene. Unfortunately, our state medical and nursing schools require very little domestic abuse education and training.

**e) Notify Students and Parents About Sex Offenders on Campus**

*This proposal would require the UW to notify parents and students about convicted sex offenders who are students or employees of the university.*

**16. Sexual Assault of a Child – Civil Action - Technical Correction:**

RPN

Modify Joint Finance language relating to SS 893.587 to read - An action *against the perpetrator* to recover damages.

**17. Family Medicine Statutory Language:**

MSL

The following proposed language assures state funds will only be used for the recruitment and training of family medicine medical students and residents. Basically, this allows first and second year residents who have yet to choose a focus to intern in Family and Community Medicine. Currently, only third and fourth year residents are allowed to and by then they have chosen a focus.
