### Provision #18, Public Safety Radio Program

#### Statement of Intent:

Require DOT to pay up to 50%, but not more than \$138,000 of its share of payments for the public safety radio management program.

#### Summary:

The Governor and Joint Committee on Finance proposed providing \$69,300 annually in the State Patrol's appropriation for making payments to the PR-S appropriation for the public safety radio management program. This amount, when added to the base of \$68,700 in the State Patrol's appropriation for this purpose, would provide a total of \$138,000 annually for making the payment. In the past, the funding for the PR-S appropriation has been split evenly between DOT and DNR. DOT's share was split between the State Patrol (68%) and the state highway rehabilitation program (32%). According to DOT, an agreement was reached with DNR, based on radio usage, to increase DOT's share to 60% and reduce DNR's share to 40%. The funding provided by this item reflects DOT's higher share and a decision to pay the full amount from the State Patrol's appropriation. Base funding in the state highway rehabilitation program for making the payment would not be deleted by the bill and so could be used for other purposes in that program.

The amount available in the State Patrol's budget for making the payment (\$138,000) and the amount provided to DNR for making this payment (\$92,000, summarized in a separate item under the Department of Natural Resources) totals \$230,000 annually. However, total funding in the bill for the public safety radio management PR-S appropriation is only \$219,300 annually. DOT indicates that the additional funds were requested to cover anticipated pay plan adjustments and possible supplies and services increases that may be requested during the biennium under s. 16.515.

This proposal would require DOT to pay up to 50% of its share of payments for the public safety radio management program, but not more than \$138,000.
