Since no information about the Stillwater Bridge project was provided with the request, the attached draft is rather inspecific. A review of literature reveals an existing historic Stillwater Bridge, proposed construction of a new Stillwater Bridge, and recent flooding of the existing Stillwater Bridge. Do you want to add any details to the amendment specifying what is meant by the terms "Stillwater Bridge project" and "mitigation funding" in the request?

Please note that this amendment may be challenged as a private or local law. Under article 4, section 18, of the Wisconsin Constitution, legislation that is specific to any person, place, or thing must be enacted as single-subject legislation unless the subject matter relates to a state responsibility of statewide dimension and its enactment will have direct and immediate effect on a specific statewide concern or interest.

**Need some changes on this one.**

**Starting with line 4, the text should read:** 84.01 (34) Stillwater Bridge Project. The Department shall develop a budget of anticipated expenditure for mitigation in connection with the Stillwater Bridge project across the St. Croix River between Houlton in St. Croix County and Still water, Minnesota. The Department shall present this budget to the Joint Committee on Finance and return to the Joint Committee on Finance if the Department needs to exceed this budget.
