Summary This motion authorizes a city, village, or town (municipality) to enact an ordinance that authorizes a particular official or employee of the municipality's fire, emergency medical technician, or first responder department to deposit in a public depository funds that are raised by fire, emergency medical technician, or first responder department employees or volunteers, or funds that are donated, on behalf of the municipality's fire, emergency medical technician, or first responder department. The ordinance may also give the particular official or employee of the fire, emergency medical technician, or first responder department exclusive control over the expenditure of the funds. The ordinance may, however, impose limits on the type and amount of funds that may be deposited into the account or on the amount of withdrawals from the account and the purposes for which the withdrawals may be made.

Generally, under current law, all funds of a municipality must be deposited by, and are disbursed by, the municipal treasurer. Under this motion, although the funds in the account are funds of the municipality, the control to deposit and disburse the funds may remain with an official or employee of the fire, emergency medical technician, or first responder department and not with the municipal treasurer.

This motion is identical to 2001 AB 214, which has 36 co-sponsors and passed the Assembly Urban and Local Affairs Committee unanimously.

Analysis by the Legislative Reference Bureau

This bill authorizes a city, village, or town (municipality) to enact an ordinance that authorizes a particular official or employee of the municipality's fire, emergency medical technician, or first responder department to deposit in a public depository funds that are raised by fire, emergency medical technician, or first responder department employees or volunteers, or funds that are donated, on behalf of the municipality's fire, emergency medical technician, or first responder department. The ordinance may also give the particular official or employee of the fire, emergency medical technician, or first responder department exclusive control over the expenditure of the funds. The ordinance may, however, impose limits on the type and amount of funds that may be deposited into the account or on the amount of withdrawals from the account and the purposes for which the withdrawals may be made.

Generally, under current law, all funds of a municipality must be deposited by, and are disbursed by, the municipal treasurer. Under this bill, although the funds in the account are funds of the municipality, the control to deposit and disburse the funds may remain with an official or employee of the fire, emergency medical technician, or first responder department and not with the municipal treasurer.
