Budget Amendments 2001 - 2003

61662

Prepared by the Assembly Republican Caucus

Statement of Intent Omnibus Energy Motion

Legislator	Hoven	Amendment	78
Legislator 2		Pass or Fail	Pass
Legislator 3		Spending Cut	
Legislator 4		Withdrawn	
Staff contact	Mike	Package	
Agency	PSC		

Summary (1) Create an energy and reliability assessment review by the Public Service Commission of proposed administrative rules that will impact the cost of energy to consumers and the ability for the state to meet its energy demands. This review authority will allow the Public Service Commission, if it deems appropriate, to attach an energy and reliability impact statement to any rule that could impact electric reliability in the state. *→ revise @ 1-2155/1*

Separate

MDK Separate

(2) Under current law, when a party petitions the PSC for a certificate of public convenience and necessity (CPCN) for the construction of a large generating facility or high-voltage transmission line, the party must also file an engineering plan with the DNR so the Department can determine what air and water discharge permits are needed to protect air and water quality. This motion would specify that a party petitioning the Commission for a CPCN would only have to submit an engineering plan to the DNR for the construction of a large generating facility, as transmission lines do not affect air and water quality.

(3) The motion would freeze spending on low-income public benefits programs at 1999-2000 funding levels, therefore capping the maximum consumer public benefits fee (charged through electric bills) at current levels. *July 1, 2001 - June 30, 2002*

anything in 01-0965/1?

(4) Effective July 1, 2002 repeal the provision in current law that requires all utilities to collect \$20,000,000 annually in public benefits for energy conservation, energy efficiency, environmental research and development, and renewable programs. *continue*

San Antonio Assessment Separate

(5) The motion would also give DOA authority to receive billing and use data for all the public school facilities in Wisconsin. This would allow DOA to perform accurate benchmarking and identify the highest energy cost schools and target their efforts to them. *oil overdang? 14.065 20.505 (1)(m) 16.95? school district loan under s. 24.61(2)?*

764

(6) The motion requires the DOA to provide a performance based contracting program for nonresidential energy conservation programs. DOA must select a program administrator with responsibility for this program only. Under performance based contracting, energy service providers identify energy savings opportunities and manage the financing and installation of energy efficient equipment. The customer then repays the cost of the improvements out of the money saved on their utility bill.

(7) The motion would also require that 25% of funding collected for energy conservation and efficiency and renewable resource programs be allocated to the performance based contracting program each fiscal year.
